*To The Honourable James A. Richardson,
Receiver General For Canada.*

SIR:

In 1968-69, Parliament amended the legislative provisions governing the preparation and presentation of the Public Accounts of Canada.

By section 45 of the Government Organization Act, 1969, c. 28, Statutes of Canada, 1968-69 which received Royal Assent on March 28, 1969, and which came into force on April 1, 1969, the Minister of Supply and Services is designated the Receiver General for Canada and is empowered to exercise all the duties, powers and functions assigned to the Receiver General by law.

By section 64 (1) of the Financial Administration Act, as amended by c. 27, Statutes of Canada, 1968-69, the Public Accounts for each fiscal year are to be prepared by the Receiver General and are to be laid before the House of Commons by the Minister of Finance on or before the thirty-first day of December next following the end of that year, or if Parliament is not then sitting, within any of the first fifteen days next thereafter that Parliament is sitting.

Section 64 (2) provides that the Public Accounts shall be in such form as the Minister of Finance may direct and shall include:

- (a) a report on the financial transactions of the fiscal year;
- (b) a statement, certified by the Auditor General, of the expenditures and revenues of Canada for the fiscal year;
- (c) a statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister of Finance are required to show the financial position of Canada as at the termination of the fiscal year;
- (d) the contingent liabilities of Canada; and
- (e) such other accounts and information as are necessary to show, with respect to the fiscal year, the financial transactions and the financial position of Canada, or are required by any Act to be shown in the Public Accounts.

In accordance with these directions, the annual report for the fiscal year ended March 31, 1969, is presented in three volumes.

VOLUME I—

A survey of the transactions for the fiscal year, together with statements certified by the Auditor General, of the revenue and expenditure for the fiscal year ended March 31, 1969, and of the assets and liabilities of Canada as at March 31, 1969, together with a statement of the contingent liabilities, departmental summaries of appropriations and expenditures, various other supporting schedules, explanatory notes, statements and appendices.

VOLUME II—

Details of expenditures and revenues, by departments, together with certain statements required by the Financial Administration Act to be published in the Public Accounts and other miscellaneous statements.

VOLUME III—

The Financial statements of all Crown corporations and the auditors' reports thereon.

On July 12, 1968, the Prime Minister announced a number of major changes in the duties and functions of existing departments and the creation of several new departments, including:

The Department of Communications with responsibility for the operations of the Post Office, matters relating to telecommunications, and the development and utilization generally of communications, undertakings, facilities, systems and services;

The Department of Fisheries and Forestry with responsibility for matters relating to the sea-coast and inland fisheries, and the forest resources of Canada;

The Department of Industry and Trade and Commerce with responsibility for matters relating to the manufacturing and processing industries in Canada, tourism and trade and commerce generally;

The Department of Regional Development with responsibility for matters relating to economic expansion and social adjustment in areas requiring special measures.

The Department of Supply and Services with responsibility for matters relating to the acquisition and provision of materiel and services for government departments and agencies.

The estimates for 1968-69 were revised to reflect these changes and the presentation of the accounts in this report follows the departmental structure as set out in the 1968-69 revised estimates. The Government Organization Act, 1969, given Royal Assent on March 28, 1969, established the new departmental structure and assigned responsibilities to each of these new departments.

THE GOVERNMENT'S ACCOUNTING SYSTEM

To assist the reader who is not familiar with the government's financial statements and general system of accounting, a brief outline of some of the more significant features of these and particularly of those aspects which differ from normal commercial accounting practices is given in the paragraphs which follow.

There are two generally accepted bases or systems of accounting. One is the "cash" basis under which revenues are taken into the accounts in the period in which they are received in cash and expenditures are accounted for when the actual disbursements are made; the other is the "accrual" basis under which revenues are accounted for when earned or due, even though not collected and expenditures are accounted for when the liabilities are incurred whether payment is made in that accounting period or not.

Many factors must be considered in determining how the government's voluminous and varied transactions should be recorded and brought into focus in a clear and comprehensive way. In business, the accounts are usually maintained on an accrual basis. However, the prime purpose of government accounting is to serve the requirements of Parliament and more particularly to ensure effective control by Parliament over public moneys. As parliamentary control in Canada is predicated on the operation of the consolidated revenue fund, which is by law a cash account, and on regulating the flow of cash receipts into and cash payments out of the fund, it follows that the accounts of Canada are maintained basically on a cash system. However, there is provision in the Financial Administration Act for bringing into the accounts of each fiscal year expenditures relating to that year, which on a pure cash basis would be excluded, and in addition certain modifications have been made to facilitate the maintenance of accounting control over certain assets and liabilities, and to provide for valuation adjustments for recorded assets in anticipation of possible losses on ultimate realization.

Revenue and expenditure

Revenues are reported on a cash basis and consequently taxes assessed and due and other revenues receivable or accrued (including interest accrued) are not normally set up as assets on the government's statement of assets and liabilities.

On the expenditure side, under the provisions of section 35 of the Financial Administration Act, for thirty days after the end of each fiscal year, payments for the discharge of debts properly applicable to the old year may be made and charged to that year. Consequently, liabilities under contracts and other accounts payable at March 31 for which cheques are issued during the month of April are charged as expenditures in the old year and appear as current liabilities on the statement of assets and liabilities. This is a significant modification of pure "cash" accounting, and brings into the year's transactions the greater part of those expenditures which on the cash basis would be excluded, but which on the accrual basis would be included and carried to the statement of assets and liabilities as accounts payable. In other respects the expenditure accounts reflect refinements of the cash basis. For example, discounts and commissions on loans are not charged to expenditure in the year in which they are paid, but are set up as deferred charges on the statement of assets and liabilities and are amortized or written off to expenditure during the period of a loan. Also, losses on loans and advances and on other assets are not generally charged to expenditure in the year in which the loss is sustained, but from time to time parliamentary authority is obtained to charge such losses to budgetary expenditure; or the ultimate loss when determined may be charged by parliamentary authority to the general reserve for possible losses on the realization of assets.

Prior to 1951-52, it was the practice to charge interest on the public debt as it became due rather than when it was paid. This was a modification of the strict cash basis of accounting, but in 1951-52 a further modification was made whereby the charges to budgetary expenditure for

interest on the public debt were made month by month as the interest accrued rather than annually or semi-annually as it became due and payable. This change is in line with the aim previously mentioned of bringing into the accounts of the year all the expenditures relating to that year. No comparable change in the treatment of interest receivable was made as it was not considered appropriate to accrue interest receivable which might or might not be received or to take it into account in determining the revenue for the year before it was actually received.

These examples will serve to indicate that while revenue is reported on a cash basis, in expenditure reporting significant modifications have been made in the cash basis to achieve many of the advantages which accrual accounting would produce. The practice is essentially conservative in that on the one hand the budgetary liabilities are set up or are otherwise taken into the accounts for the year, and on the other, tax and other revenue assessments, interest accruals (with certain exceptions) and accounts receivable are not treated as assets or taken into revenue until collected.

Assets and liabilities

Section 64 of the Financial Administration Act directs that the Public Accounts of Canada shall include:

"A statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year."

The assets and liabilities of Canada are set out so as to disclose the amount of the net debt. In 1920, the practice was established of offsetting against the gross liabilities only what were designated as "active" assets in determining the net debt. In the budget speech of May 18, 1920, the following explanation was given by the Minister of Finance.

"Assets which are not readily convertible, as the reserve is convertible, or are not interest producing, are not such assets as ought to be deducted from the gross debt. They are inactive, they are items of such a character as might well be placed in a suspense account. At any rate, whatever may be their future value, however great it may be, they are not assets of such a character as to directly reduce the gross debt any more than the other capital accounts of the country ought to be deducted from it."

Since that time, there has been no fundamental change in the basic structure of the statement or in its main purpose. However, revisions have been made from time to time to improve the form or manner of presentation, with consideration being given continually to the possibility of further improvements.

With certain exceptions, taxes and revenues receivable, revenue and other asset accruals and inventories of materials, supplies and equipment are not recorded as assets (except when these are held as charges against working capital accounts) nor are public works and buildings or other fixed or capital assets. Following the principle that only realizable or interest- or revenue-producing assets should be offset against the gross liabilities, costs of capital works are charged to expenditures at the time of acquisition or construction. Consequently government buildings, public works, national monuments, military assets (such as aircraft, naval vessels, and army equipment) and other capital works and equipment are recorded on the statements of assets and liabilities at a nominal value of \$1 as the value is not considered as a proper offset to the gross liabilities in determining the net debt of Canada.

On the liabilities side, accrued liabilities (except for interest accrued on the public debt) are not taken into account in determining the obligations of the government. However, under section 35 of the Financial Administration Act, liabilities under contracts and other accounts payable at March 31 if paid on or before April 30 may be charged to the accounts for the year. These are recorded as accounts payable in the "Current and demand liabilities" schedule to the statement of assets and liabilities.

The *liabilities* of the government, as shown in the statement of assets and liabilities include:

- (1) unmatured debt, consisting of bonds and treasury bills;
- (2) current and demand liabilities, including matured debt outstanding, outstanding cheques, interest due and outstanding, interest accrued, accounts payable, non-interest-bearing notes payable to international organizations and other obligations payable on demand;
- (3) sundry funds deposited with the Receiver General of Canada or held in trust for various purposes;
- (4) amounts to the credit of various annuity, insurance and pension accounts;
- (5) undisbursed balances of special accounts, which, in accordance with the legislation under which they are authorized, are available for expenditure in periods subsequent to the fiscal year in which they are granted;
- (6) refundable tax on cash profits of businesses paid by all corporations not exempt from tax under section 62 of the Income Tax Act and by certain types of trusts on specified types of income;
- (7) provision for compound interest on Canada savings bonds;
- (8) amounts due to the government but in respect of which payment has been deferred; these are contra accounts to corresponding items under "Loans to, and investments in, Crown corporations", "Loans to national governments" and "Other loans and investments"; and
- (9) suspense accounts consisting of balances where some uncertainty as to disposition exists.

The *indirect* or *contingent liabilities* of the government are shown as a special note appearing in the body of the statement of assets and liabilities and are also set out in a detailed supplementary statement.

Offsetting the direct liabilities, and in a measure explaining their existence, as a substantial portion of the total debt is attributable to them, are the government's *recorded assets*. For the most part, these consist of assets which yield interest, profits or dividends, and very liquid assets such as cash and departmental working funds. The principal classes of assets are:

- (1) current assets, including cash, securities held for the securities investment account;
- (2) cash in blocked currency;
- (3) departmental working capital advances;
- (4) advances to the exchange fund account for the acquisition of gold and foreign exchange;
- (5) investments in United States of America dollar securities issued by other than the Government of Canada, a category set up to record the special securities issued by the Government of the United States of America and purchased by Canada pursuant to the terms of the Columbia River Treaty between the Governments of the United States and Canada;
- (6) Canada pension plan investment fund;
- (7) investments held for retirement of unmatured debt;
- (8) loans to, and investments in, Crown corporations;
- (9) loans to national governments;
- (10) other loans and investments, including loans to provincial and municipal governments, subscriptions to international organizations, advances to the municipal development and loan board and a number of miscellaneous advances to veterans and others;

- (11) securities held in trust for various deposit and trust and annuity, insurance and pension accounts and bonds and certified cheques held in connection with contractors' security deposits;
- (12) deferred charges which consist of the unamortized portions of the actuarial deficiencies in the superannuation accounts, representing that portion of the government's liability in respect of these accounts that has not been charged to budgetary expenditures and discounts, commissions, redemption bonuses and conversion premiums on loan flotations, remaining to be charged to expenditure;
- (13) capital assets, a category set up to cover capital assets that are charged to budgetary expenditure at the time of acquisition or construction and which are shown on the statement of assets and liabilities at a nominal value of \$1; and
- (14) inactive loans and investments which are not currently yielding interest, profits or dividends.

A reserve for losses on the realization of assets is not shown as a liability but is deducted from the total of the assets.

Net debt

The excess of the gross liabilities over the net recorded assets is designated as the net debt and a separate schedule to the statement of assets and liabilities is presented showing the changes in the net debt during the fiscal year. In effect, the net debt is the overall deficit since Confederation. The list of items charged to net debt is presented in appendix No. 11, in section 9 of this volume.

BUDGETARY REVENUE AND EXPENDITURE AND FINANCING OF CASH REQUIREMENTS For Fiscal Year 1968-69

Revenue

Budgetary revenue of the government in 1968-69 was \$10,191 million. This was \$86 million or almost 1 per cent more than the forecast by the Minister of Finance on October 22, 1968 and \$1,162 million or 13 per cent higher than the \$9,029 million received in 1967-68.

Tax revenue of \$8,986 million was 88 per cent of budgetary revenue and accounted for \$970 million of the increase over the previous year's receipts. Non-tax revenue of \$1,205 million was 12 per cent of total revenue and accounted for \$192 million of the increase.

The yield from income taxes was \$5,592 million, \$851 million more than in 1967-68. The increase was due mainly to a higher level of personal incomes during the year and to the shift forward of the payment period for corporations, the termination of the accelerated depreciation program and the three-year curtailment of capital cost allowances for certain classes of assets.

Receipts from the sales tax were \$1,570 million, \$31 million less than in 1967-68; receipts from other excise taxes and duties were \$887 million, \$62 million more, due mainly to increased rates on spirits and tobacco products; and receipts from customs import duties were \$762 million, \$15 million more than in 1967-68.

Non-tax revenue of \$1,205 million was \$192 million higher than in 1967-68 due mainly to increases of \$83 million in return on investments and \$29 million in Post Office revenue.

Expenditure

Budgetary expenditure in 1968-69 was \$10,767 million. This was \$13 million or about one tenth of one per cent less than forecast on October 22, 1968 and \$943 million or 10 per cent higher than 1967-68 expenditures.

The main changes were increases of \$179 million in public debt charges, \$130 million in fiscal, subsidy and other payments to provinces, \$93 million in the government's contributions under the Hospital Insurance and Diagnostic Services Act and a charge of \$121 million to cover salary revisions.

BUDGETARY REVENUE AND EXPENDITURE
Fiscal Years Ended March 31
Billions of Dollars

Deficit

Budgetary expenditure of \$10,767 million exceeded budgetary revenue of \$10,191 million resulting in a budgetary deficit of \$576 million. This was \$99 million lower than forecast on October 22, 1968 and \$219 million lower than the 1967-68 deficit of \$795 million.

Non-budgetary transactions (excluding unmatured debt transactions)

Non-budgetary transactions are those which increase or decrease the government's asset and liability accounts and do not enter into the calculation of the annual budgetary surplus or deficit.

In 1968-69 disbursements and charges of \$3,357 million exceeded receipts and credits of \$1,996 million resulting in a net requirement of \$1,361 million. In 1967-68 receipts and credits of \$2,411 million exceeded disbursements and charges of \$2,205 million resulting in a net receipt of \$206 million.

Old age security fund

Receipts credited to the fund in 1968-69 totalled \$1,626 million and payments charged to the fund totalled \$1,541 million. In 1967-68 receipts were \$1,495 million and payments were \$1,388 million.

The transactions in the fund during 1968-69 compared with those for 1967-68 were as follows:

Canada pension plan account

Receipts credited to the fund in 1968-69 totalled \$785 million and disbursements (of which \$16 million was pension payments and \$14 million was administrative costs) totalled \$30 million. In 1967-68 receipts were \$685 million and disbursements (mainly administrative costs) were \$13 million.

The transactions in the fund during 1968-69 compared with those for 1967-68 were as follows:

	Fiscal year ended March 31	
	1969	1968
	(in millions of dollars)

	<u>2,108</u>	<u>1,353</u>
Balance at end of fiscal year.....	<u>2,108</u>	<u>1,353</u>

The balance in the account at March 31, 1969 consisted of investments of \$2,012 million in provincial government securities and \$11 million in federal government securities, and an operating balance of \$85 million on deposit with the Receiver General of Canada.

Unmatured debt transactions

These transactions resulted in an increase of \$1,523 million in unmatured debt outstanding in the hands of the public compared with an increase of \$790 million in 1967-68.

Change in cash position

Receiver General bank balances were \$602 million at March 31, 1969 compared with \$1,016 million at March 31, 1968.

The budgetary deficit of \$576 million plus the non-budgetary requirement of \$1,361 million was financed by an increase of \$1,523 million in unmatured debt outstanding in hands of the public and a draw-down of \$414 million from Receiver General bank balances.

Change in debt position

As a result of budgetary and non-budgetary transactions the gross public debt increased by \$2,995 million to \$35,919 million at March 31, 1969, net recorded assets increased by \$2,419 million to \$18,583 million and the net debt increased by \$576 million to \$17,336 million.

FEDERAL GOVERNMENT REVENUE AND EXPENDITURE
ON A NATIONAL ACCOUNTS BASIS

Annual federal government revenue, on a national accounts basis, throughout the period 1961-62 to 1967-68 advanced with the continued expansion of the economy. Expenditures during the years 1961-62 to 1965-66 rose at a stable 4 per cent per year. The years 1966-67 and 1967-68 saw an upsurge in federal government expenditures resulting in increases of 15.0 per cent and 13.6 per cent respectively. The cumulative effect in 1967-68 produced a deficit for the year, on a national accounts basis, of \$314 million.

Revenues during the year 1968-69 increased at an even greater rate, while the rate of increase in expenditures for the year decreased, resulting in a deficit for the year, on a national accounts basis, of \$85 million.

Federal government revenue increased in the year by 13.5 per cent. Increases were registered in all major components with the exception of withholding taxes which declined slightly during the period. Personal direct taxes, the largest component, increased by \$704 million reflecting higher labour income, a temporary 3 per cent surtax in 1968-69 and, to a lesser extent, the 2 per cent social development tax imposed on taxable income at the beginning of the 1969 calendar year. Higher rates of increase were registered in the corporation direct taxes and in the employer and employee contributions to social insurance and pension funds components. Increases in corporate liabilities on business income resulted from: (1) a resumption of the upward trend in corporation profits; (2) the termination of accelerated depreciation programs at the end of 1966 and early in 1967; (3) the introduction of a temporary 3 per cent surtax on corporation profits; and, (4) a shift forward of payment periods for corporation taxes, announced in November 1967. The sharp increase in the contributions to social insurance and pension funds was caused almost entirely by payments made by the government in respect of liabilities arising from salary increases in 1968-69. Increases in investment income were due primarily to increases in the trading profits of federal government enterprises.

Total expenditures of the federal government rose by 11.0 per cent during 1968-69 as compared to 13.6 per cent during 1967-68. While each of the components, with the exception of subsidies and of capital assistance, increased in varying degrees, the rate of increase was generally lower than in the previous year. Defence goods and services expenditures remained virtually unchanged, while non-defence expenditures on goods and services increased by \$298 million. This latter increase was caused primarily by price increases including salaries, and by a change in the method of supporting adult occupational training. In prior years, this training had been supported by grants to provincial governments which were reflected under transfers to other levels of government. The year 1968-69 saw the phasing out of this program and its replacement by one wherein the federal government paid for specific courses given to individuals. This new program resulted in expenditures during 1968-69 of \$83 million, which were included in non-defence goods and services. Increases in transfers to persons were largely attributable to increased payments from the old age security fund as the result of increased rates and the continued lowering of age requirements. Other factors contributing to these increases were (1) increased unemployment insurance payments reflecting both higher levels of unemployment and changes in benefit rates, and (2) larger expenditures with respect to allowances paid under the Adult Occupational Training Act. Transfers to other levels of government increased more than any other component. The more significant increases occurred in payments with respect to post-secondary education adjustments, Hospital Insurance and Diagnostic Services Act, medicare and the Canada assistance plan, which were partially offset as a result of the phasing out of grants under the Adult Occupational Training Act. Increases in interest on public debt reflected the higher interest rates during the fiscal year.

Reconciliation of the Public Accounts and National Accounts Presentation

The reconciliation of revenue and expenditure within the national accounts framework with that within the budgetary or public accounts framework, is presented in Tables 5 and 6. A summary of adjustments is provided in the following table:

⁽¹⁾This item includes the supplementary period adjustment.

The framework (national accounts or public accounts), within which the annual budget or surplus is computed, has a significant impact on its level. The contributing factors to this difference may be grouped within three classifications:

- (i) transactions included within the budgetary or public accounts framework, but excluded from national accounts, e.g. Post Office—which is considered for national accounts analysis, as an enterprise.
- (ii) extra-budgetary transactions excluded from the budgetary or public accounts presentation, but included in the national accounts determination of government revenue and expenditure, and
- (iii) other adjustments required to convert data in accordance with national accounts concepts, such as those required to convert investment income and corporate tax reporting from a cash to an accrual basis, and those required to incorporate the transactions of other government funds and Crown agencies within the national accounts framework.

Deficits both within the budgetary and the national accounts frameworks decreased significantly in the 1968-69 fiscal year. The annual surplus of extra-budgetary funds improved the overall net position of the federal government, on a national accounts basis, as is its normal tendency. While expenditures from these funds increased, revenue increased at a greater rate. There was also a sharp increase in federal government investment income during the year. The significant increases under miscellaneous in 1968-69 were the result of greater than normal expenditures and

revenue in the 1967-68 supplementary period which, within the national accounts framework, were included in the 1968-69 year. The increase in the other adjustments to revenue were due primarily to the increased profits of federal government enterprises, while the decrease in expenditures under other adjustments resulted in the main from the elimination of reserves and write-offs, included in budgetary expenditures, but excluded within the national accounts framework.

SUMMARY

In 1968-69 budgetary revenue was \$10,191 million and budgetary expenditure was \$10,767 million, resulting in a budgetary deficit of \$576 million.

The practice whereby revenues arising from a particular vote is credited thereto was extended to include Department of Transport vote 5, marine services and vote 30, air services. In 1968-69 these revenues totalled \$10 million in respect of marine services and \$45 million in respect of air services.

In the following table, which shows the budgetary revenue, expenditure and deficit for each of the fiscal years ended March 31, 1960 to March 31, 1969, prior years' figures have not been changed to reflect the effect of this practice.

Although there were month to month variations in both revenue and expenditure, 44 per cent of the total revenue was credited in the first six months whereas for the same period only 42 per cent of expenditure had been charged. The heavier expenditure towards the end of the fiscal year was due to three main factors: many construction contracts which were let in the early part of the year did not come up for payment until some months later; under provisions of Financial Administration Act, expenditures properly applicable to the fiscal year 1968-69 but made in April 1969 were charged to the fiscal year 1968-69; and deficits of Crown corporations and special operating accounts which were charged to 1968-69 expenditure were not known until late in the fiscal year. Expenditures in the supplementary period were \$756 million or 7 per cent of total expenditure whereas revenue recorded in the same period was \$307 million or 3 per cent of total revenue.

BUDGETARY SURPLUS OR DEFICIT BY MONTHS
For Fiscal Year Ended March 31, 1969
Millions of Dollars

The amount of revenue is affected by changes in taxation rates, by changes in the base on which taxes are calculated and by variations in economic conditions. Income tax liability relates to the income of a taxation year but the system of collecting personal and corporation income taxes by instalments tends to produce a more even distribution of receipts throughout the fiscal year.

Personal and corporation income taxes collected by the federal government on behalf of the provinces, and subsequently remitted to the provinces, are not included in the tables shown here.

BUDGETARY REVENUE BY MONTHS AND MAJOR SOURCE
For Fiscal Year Ended March 31, 1969
Millions of Dollars

Personal income tax

Refunds of over-deductions of personal income tax are deducted from gross receipts in the category "deductions at source". This resulted in considerably lower net receipts in the months of April, May and June of 1968. Refunds in these months were \$95 million, \$186 million and \$130 million respectively.

Included in the category "other collections" are quarterly instalments of tax paid directly to the government by individuals. These instalments are payable on or before March 31, June 30, September 30 and December 31 of each taxation year with any unpaid balance being due at the time of filing of income tax returns. The large receipts in April and May 1968 reflected the payment of balances due for the 1967 taxation year.

Corporation income tax

Under the provisions of the Income Tax Act corporations are generally required to pay tax in monthly instalments. In the past their payment period has not coincided exactly with the taxation year in respect of which the instalments are being made. However, during 1968-69 transitional measures were in effect that were intended to bring the payment period of corporations more nearly in line with their taxation year. These special measures required corporations to pay five bi-monthly instalments of tax in respect of the 1968 taxation year.

The large receipts in July, September, November 1968 and January and March 1969 reflected bi-monthly instalment payments of calendar year corporations which represent the largest group of corporations while the large receipts in April and May reflected the year-end settlement payments of these corporations for the previous taxation year.

Customs import duties

These collections varied between a high of \$72 million in October and a low of \$53 million in December reflecting normal fluctuations in imports of dutiable items.

Sales tax, other excise taxes and duties

There were variations in these receipts from month to month but it is noted the \$1,108 million or 45 per cent was received in the first six months and \$1,349 million or 55 per cent in the last half of the fiscal year.

All other revenue

The large receipts in June, October and December 1968 and March 1969 were due mainly to substantial returns on investments received in those months; those in January 1969 were due to large receipts from the taxes on dividends, interest, etc. going abroad.

Expenditure

Expenditure is usually greater towards the end of the fiscal year because many construction contracts which are let in the early part of the year do not come up for payment until some months later and deficits sustained by Crown corporations and losses incurred in the operation of various agencies and accounts are not known until the end or towards the end of the fiscal year. Also, under section 35 of the Financial Administration Act, for thirty days after March 31, payments properly applicable to the old year may be made and charged to that year's accounts.

Defence

Expenditures of the Department of National Defence did not follow any definite monthly pattern with \$790 million or 45 per cent being spent in the first six months and \$971 million or 55 per cent in the remainder of the fiscal year, of which \$207 million or 12 per cent was spent in March and the supplementary period. This reflects payments on construction and other contracts coming due late in the year.

Public debt charges

Monthly charges in this category reflect some variations due to adjustments in the accrual of interest.

Payments to provinces

The larger payments in July 1968 and January 1969 were due to subsidy payments to all provinces; those in October 1968 and March 1969 were due to payments to Quebec under the Established Programs (Interim Arrangements) Act; and those in February 1969 were due to payments of certain public utility tax receipts.

BUDGETARY EXPENDITURE BY MONTHS AND MAJOR CLASSIFICATION
For Fiscal Year Ended March 31, 1969
Millions of Dollars

Public works and transport

Expenditure under these categories was \$299 million or 39 per cent for the first six months compared with \$464 million or 61 per cent for the remainder of the fiscal year. This was due mainly to construction contracts coming due for payment late in the year and to payments by the Department of Transport in December to the railways for the maintenance of the rates of freight traffic and in the supplementary period in respect of the operating deficit of the Canadian National Railways.

All other expenditure

Some of the large items in this grouping are (a) charges in the supplementary period of \$145 million to cover the 1968-69 net operating loss of the agricultural stabilization board, and (b) charges each month in respect of total payments for the fiscal year of \$562 million under the Hospital Insurance and Diagnostic Services Act, \$356 million for the development and utilization of manpower, \$257 million under the Canada assistance plan and \$277 million in post-secondary education payments.

REVENUE

Budgetary revenue in 1968-69 totalled \$10,191 million, \$1,162 million or 13 per cent over the comparable amount of \$9,029 million received in 1967-68. Tax revenue at \$8,986 million accounted for 88 per cent and non-tax revenue at \$1,205 million accounted for 12 per cent of the total revenue for 1968-69. In 1967-68 tax revenue was \$8,016 million or 89 per cent of the total and non-tax revenue was \$1,013 million or 11 per cent.

Tax revenue increased by \$970 million of which \$507 million was from personal income taxes, \$359 million from corporation income taxes and \$63 million from the social development tax which was effective from January 1, 1969. Non-tax revenue increased by \$192 million of which \$83 million was from return on investments and \$29 million from post office revenue.

In 1968-69 the practice, whereby revenue arising from a particular vote is credited thereto, was extended to include Department of Transport vote 5, marine services and vote 30, air services. For purposes of comparison the 1967-68 figures have been adjusted accordingly in the following revenue tables.

TAX REVENUE

Federal-provincial fiscal arrangements

Under fiscal arrangements, that became operative in 1962, the federal government withdrew in part from the field of direct taxation and left the vacated area to the provinces. The federal government offered to collect the provincial income taxes without charge provided that provincial personal income tax was expressed as a percentage of federal personal income tax otherwise payable and provincial corporation income tax applied to taxable income calculated in the same way as for federal income tax purposes. To allow for the imposition of the provincial income taxes, the Income Tax Act was amended to abate the federal income tax otherwise payable by individuals in all provinces except Quebec by 24 per cent in 1966 and 28 per cent in 1967, 1968 and 1969. For 1966 the abatements of federal income tax otherwise payable in the Province of Quebec by

individuals was 47 per cent; for 1967, 1968 and 1969, the abatement was 50 per cent. These higher abatements for Quebec are in recognition of the fact that the payment of youth allowances and the full cost of certain programs which are supported jointly by federal and provincial governments in the other provinces have been assumed by Quebec. For the year 1966 the federal corporation income tax rates were abated by 9 percentage points for taxable income earned in a province other than Quebec and by 10 percentage points for taxable income earned in Quebec. For 1967, 1968 and 1969 the abatement was 10 percentage points for taxable income in all provinces. The federal government has entered into tax-collection agreements under which it collects the provincial personal income taxes of all provinces except Quebec and the provincial corporation income taxes of all provinces except Ontario and Quebec.

Under these collection agreements, payments are made monthly to each province based on an estimate of that province's tax revenue. The actual amounts due based on assessed returns are established December 31 following the end of the fiscal year and adjustments are made with the provinces.

Under the present fiscal arrangements, the federal government agreed to abate its estate tax by 50 per cent in the fiscal years 1962-63 and 1963-64 and by 75 per cent thereafter, in any province that imposed its own succession duties. To a province that did not wish to re-enter the succession duty field the federal government agreed to pay 50 per cent of the federal estate tax revenue from within that province in 1962-63 and 1963-64 and 75 per cent thereafter. During 1962-63, Quebec and Ontario collected their own succession duties while the other provinces received a payment in lieu of imposing duties. Starting in 1963-64 British Columbia joined Ontario and Quebec in imposing its own succession duties. When the estate tax abatement was raised to 75 per cent in 1964-65, British Columbia increased its succession duty rates accordingly but Quebec and Ontario preferred to take in lieu of the extra abatement a payment equivalent to 25 per cent of the federal estate tax in those provinces. This arrangement also carried into 1965-66, 1966-67, 1967-68 and 1968-69.

PRINCIPAL SOURCES OF TAX REVENUE

Fiscal Years Ended March 31

Millions of Dollars

Tax on personal income

In 1968-69 personal income tax was again the largest source of government revenue. Its yield (excluding the old age security tax) was \$3,356 million or 33 per cent of all budgetary revenue compared with \$2,850 million or 32 per cent in 1967-68. The increase of \$507 million was due mainly to a higher level of personal incomes in 1968-69 and partly due to a temporary surtax of 3 per cent on the basic tax in excess of \$200 applied in 1968 and 1969.

In addition to the federal revenue, \$1,089 million was allocated to the provincial tax collection agreements account under the terms of federal-provincial fiscal arrangements compared with \$961 million in 1967-68.

The tax on personal incomes levied under the Old Age Security Act and credited to the old age security fund was \$915 million compared with \$800 million in 1967-68. This increase of \$115 million was due mainly to higher levels of personal income in 1968-69.

Corporation income tax

Corporation income tax was the second largest source of government revenue. The yield (excluding the old age security tax) was \$2,030 million or 20 per cent of total budgetary revenue compared with \$1,671 million or 19 per cent in 1967-68. The increase of \$359 million was due to the shift forward of the payment period for corporations announced in November 1967 and to the termination of the accelerated depreciation programs at the end of 1966 and early in 1967, to the three year curtailment of capital cost allowances for certain classes of assets purchased between March 30, 1966 and April 1, 1967 and to the imposition of the surtax of 3 per cent on corporation income.

In addition to the federal revenue, \$171 million was allocated to the provincial tax collection agreements account under terms of federal-provincial fiscal arrangements compared with \$167 million in 1967-68.

The tax on incomes of corporations levied under the Old Age Security Act and credited to the old age security fund was \$183 million compared with \$150 million in 1967-68.

Taxes on dividends, interest, etc., going abroad

Revenue in this category was derived from taxes withheld from payments of dividends, interest, rents, royalties, alimony and income from estates and trusts paid to non-residents. Collections for 1968-69 were \$206 million, a decrease of \$15 million or 7 per cent from the 1967-68 total.

Social development tax

This is a new tax which first took effect for the taxation year 1969. The tax, which is imposed on individuals, is the lesser of 2 per cent of taxable income or \$120. During 1968-69, \$63 million was collected.

Excise taxes

Excise taxes including the sales tax totalled \$1,948 million, 19 per cent of total budgetary revenue compared with \$1,938 million or 21 per cent in 1967-68.

Sales tax

From a revenue standpoint the general sales tax was the most important tax levied under the Excise Tax Act. Receipts (excluding the old age security tax) were \$1,570 million, \$31 million less than 1967-68 receipts. The decline in receipts reflects the cancellation enacted during 1967-68 of the sales tax on production machinery and on drugs.

The sales tax levied under the Old Age Security Act and credited to the old age security fund was \$528 million compared with \$545 million in 1967-68.

Other excise taxes

The yield from excise taxes levied under the Excise Tax Act, other than the general sales tax was \$378 million, \$41 million more than in 1967-68 due mainly to the increase in the excise taxes on tobacco products applied from December 1, 1967.

Customs import duties

Receipts from this source totalled \$762 million compared with \$746 million in 1967-68.

Excise duties

Excise duties were levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products were levied under the Excise Tax Act.) Net receipts in 1968-69 were \$509 million compared with \$488 million in 1967-68. The increase of \$21 million was due in part to increased rates of duty during the year.

(1) Less than \$50,000.

Gross receipts of \$320 million from duties on alcoholic beverages consisted of \$185 million in respect of spirits and \$135 million in respect of beer and were \$20 million higher than collections of \$301 million in 1967-68 of which \$181 million was in respect of spirits and \$120 million in respect of beer. This was due mainly to increases in the duties on spirits and beer applied from December 1, 1967.

Gross receipts of \$197 million from duties on tobacco products were \$2 million more than in 1967-68.

Refunds and drawbacks of \$8 million resulted in net excise duty collections of \$509 million in 1968-69. In 1967-68 refunds and drawbacks were \$7 million and net receipts were \$488 million.

Estate tax

Revenues in this category were derived under the Estate Tax Act. Net receipts of \$112 million were \$10 million more than in 1967-68.

Other taxes

Revenue under this heading during the fiscal year was \$250 thousand compared with \$300 thousand in 1967-68.

NON-TAX REVENUE

Non-tax revenue totalled \$1,205 million in 1968-69, \$192 million or 19 per cent higher than in 1967-68. The main changes were increases of \$83 million in return on investments, \$29 million in post office revenue and \$64 million in bullion and coinage.

It is noted that Department of Transport votes 5 and 30, Appropriation Act No. 4, 1968, which covered administration, operation and maintenance costs of marine services and air services respectively, gave authority to credit thereto revenue arising from services provided thereunder. Consequently such revenue is not reflected in the accounts as revenue. For purposes of comparison the 1967-68 figures have been amended accordingly.

Loans to, and investments in, Crown corporations

Receipts from Crown corporations at \$529 million were \$80 million more than in the previous year. The main changes were increases of \$36 million in payments by the Central Mortgage and Housing Corporation, \$16 million by the Farm Credit Corporation, \$13 million by the Canadian National Railways and \$9 million in the Bank of Canada profits paid to the government.

Bank of Canada profits paid to the government were \$186 million compared to \$177 million in 1967-68 and Central Mortgage and Housing Corporation paid \$199 million compared with \$163 million.

Other loans and investments

The yield from other loans and investments was \$166 million compared with \$164 million in 1967-68.

The main changes were an increase of \$29 million in the earnings of the exchange fund account (\$85 million in 1968-69 compared with \$55 million in 1967-68), a decrease of \$18 million in interest received from the United Kingdom (\$3 million compared with \$21 million) and a decrease of \$15 million in the earnings of the securities investment account (\$2 million compared with \$17 million). The decrease in interest from the United Kingdom was the deferment of the interest payment due on December 31, 1968 on the 1946 loan made to that government under the United Kingdom Financial Agreement Act, 1946.

Other receipts included \$20 million from interest-bearing deposits with the chartered banks (\$23 million in 1967-68), \$14 million in interest from loans made to the Municipal Development and Loan Board (\$13 million in 1967-68) and \$16 million in interest from soldier and general land settlement loans and veterans land act advances (\$13 million in 1967-68).

Post office revenue

Gross receipts from post office operations were \$363 million but authorized disbursements from revenue for salaries and rent allowances, other allowances and commissions at semi-staff and revenue offices, commissions at sub-offices, transit charges on Canadian mail forwarded through and delivered in foreign countries, etc., in the amount of \$52 million resulted in net revenue of \$311 million. In 1967-68 gross receipts were \$327 million, authorized disbursements were \$45 million and net revenue was \$282 million.

As is shown in the section on budgetary expenditure the net costs of operating the Post Office during 1968-69 (excluding the \$53 million charged to revenue) were \$342 million. As net revenue was \$311 million there was an operating deficit of \$31 million. In 1967-68 net revenue was \$282 million, net operating costs were \$302 million and the net operating deficit was \$20 million. The higher receipts in 1968-69 resulted from increased postal rates and the increase in costs was due mainly to higher salary rates and to normal staff growth.

However, it should be noted that the total shown for post office revenue does not reflect any payment for the franking privilege covering parliamentary and departmental mail or for certain

miscellaneous services provided for other government departments and agencies, nor does the total shown for operating expenses reflect any charges for premises occupied by the Post Office or for accounting and miscellaneous services provided by other departments.

Refunds of previous years' expenditure

Refunds received in 1968-69 of expenditure made in prior years totalled \$24 million compared with \$21 million in 1967-68.

The Department of National Defence received \$7 million of which \$2 million was due to cost audits and \$3 million to adjustments on contracts with the United States Government and the Department of Veterans Affairs received \$5 million of which \$4 million was refunds of veterans pensions, allowances and re-establishment credits.

In addition to the profit on bullion and coinage, the Mint also realized a profit of \$7 million from sales of coin sets which is recorded under the category "services and service fees".

Other non-tax revenue of \$17 million was \$2 million more than in 1967-68.

APPROPRIATIONS

Although a major part of the expenses of the public service is defrayed from moneys granted by Parliament in the annual appropriation acts, substantial payments are made under authority of other acts which authorize expenditures out of the consolidated revenue fund for specified purposes and for such definite or indefinite amounts and during such periods of time as the acts may prescribe. The spending authority granted in the annual appropriation acts differs from that granted in "statutory" authorities in that it is usually for a specific amount and of definite duration and, unless there is provision to the contrary in the wording of the vote, any unused balance lapses at the end of the fiscal year of which it was granted, as provided by section 35 of the Financial Administration Act.

The following is a summary of budgetary expenditure provided under the authority of the annual appropriation acts and various statutory authorities for the fiscal year ended March 31, 1969. A statement in greater detail, classified by departments, is given in section 8 of this volume.

(1) Less than \$500,000.

In addition an amount of \$48 million was carried forward from 1967-68 in accordance with provisions made in the original appropriations.

Appropriation Act No. 3, 1968 included amounts authorized by the special warrants issued by the Governor General, due to the dissolution of Parliament, for the months of June, July, August and September 1968, pursuant to the following Orders of the Governor in Council: P.C. 1968-1116, June 5, 1968, \$357,543,700; P.C. 1968-1291, July 4, 1968, \$397,406,625; P.C. 1968-1444, July 24, 1968, \$40,000; P.C. 1968-1486, July 31, 1968, \$428,542,182; P.C. 1968-1631, August 21, 1968, \$990,000; P.C. 1968-1753, September 5, 1968, \$486,206,430.

Budgetary expenditures during 1968-69, under authority of these appropriations, totalled \$5,806 million, consequently, \$178 million, or about 3 per cent of the amount provided by the appropriation acts for budgetary expenditures, was unspent at the close of the fiscal year. Of this amount \$172 million lapsed in accordance with section 35 of the Financial Administration Act and \$6 million was available for expenditure in 1969-70 in accordance with provisions of the appropriation acts:

Budgetary expenditures in 1968-69 under the authority of statutes authorizing payments from the consolidated revenue fund for specific purposes without further appropriations amounted in the aggregate to \$4,961 million, accounting for approximately 46 per cent of the total budgetary expenditures of \$10,767 million. A comparative summary of these statutory expenditures by principal classes is shown in the following table:

⁽²⁾ In addition, \$10.8 million was charged to budgetary expenditure in 1967-68 as provided by Department of Energy, Mines and Resources vote 92.

EXPENDITURE

In 1968-69, in order to improve the functioning of the government service, major changes were made in the control and supervision of the duties and functions of a number of departments and several new departments were formed. The newly formed departments are Communications, Fisheries and Forestry, Industry and Trade and Commerce, Regional Development and Supply and Services. More detailed information in respect of the realignment of duties and responsibilities is given in the departmental references to expenditures in subsequent pages of this section.

For purposes of comparison the 1967-68 figures have been adjusted accordingly.

Budgetary expenditure was \$10,767 million in 1968-69 compared with \$9,824 million in 1967-68, an increase of \$943 million or 10 per cent.

The main changes were increases of \$300 million in expenditures of the Department of Finance, \$160 million in expenditures of the Department of National Health and Welfare, \$173 million in expenditures of the Department of the Treasury Board and \$157 million in expenditures of the Department of the Secretary of State.

A comparative summary of budgetary expenditure is presented for the 1968-69 and 1967-68 fiscal years in the following table:

PRINCIPAL CLASSES OF BUDGETARY EXPENDITURE

1. The unshaded areas of the columns in the chart for health, welfare and social security represent pension payments out of old age security fund not charged to budgetary expenditure.

2. Does not include those payments made to provincial and municipal governments for specific purposes.

As statements of accountability to Parliament, it is appropriate that the expenditures should be reported on the basis of the classifications adopted in the Appropriation Acts and the Estimates, so in the accounting statements in subsequent sections of this report and in the analysis of the year's expenditures later in this section of the survey these are the classifications that have been followed. However, analyses of expenditures by function or purpose on the one hand, and by object or type of goods or service acquired on the other, supplement the information contained in statements of expenditures by departmental or administrative units.

In the preceding table a classification of expenditure by major function or purpose is presented. For purposes of comparison, expenditure for the four preceding years has been compiled on the same basis.

In the following table a comparative summary of budgetary expenditure by standard objects is presented for the fiscal years 1968-69 and 1967-68. A more detailed statement of the 1968-69 expenditure by standard objects and special categories as set out in the estimates and classified by departments is presented in section 8 of this volume.

(1) Less than \$50,000.

Production and marketing

Outlays for production and marketing were \$179 million, compared with \$176 million in 1967-68.

The Agricultural Commodities Stabilization Act directs that, at the end of each fiscal year, the Minister of Finance shall determine the net profit or loss on the operations of the agricultural stabilization board and if there is a net loss it shall be charged to a parliamentary appropriation. The net loss for 1968-69 of \$144 million and \$1 million to cover a carry over of part of the 1967-68 operating loss was charged to 1968-69 expenditures. In 1967-68 the net loss was \$141 million of which \$140 million was charged to 1967-68 expenditures.

Expenditures in respect of animal and animal products were \$17 million and included \$14 million for the livestock division (of which \$7 million was premium payments for high grade hog and lamb carcasses and \$2 million for supervision of race track betting), \$2 million for the poultry division and \$1 million for the dairy division. In 1967-68 expenditures were \$22 million and included \$17 million for the livestock division (of which \$11 million was premiums for high grade hog and lamb carcasses and \$2 million for supervision of race track betting), \$3 million for the dairy division and \$1 million for the poultry division.

Expenditures in respect of plant and plant products were \$10 million and included \$3 million each for the fruit and vegetable division, the plant products division and the plant protection division. In 1967-68 expenditures were \$9 million and included \$3 million each for the fruit and vegetable division, the plant products division and the plant protection division.

The Agricultural Products Board Act provides that the board may with the authority of the Governor in Council: (a) sell or deliver agricultural products to the government of any country or agency thereof; (b) purchase or negotiate contracts for the purchase of agricultural products on behalf of the government of any country or agency thereof; (c) buy, sell or import agricultural products; and (d) store, transport or process, or enter into contracts for the storing, transportation or processing of agricultural products. It also provides for the establishment in the consolidated revenue fund of the agricultural products board account in which all financial transactions as provided above are recorded. In 1968-69 there was a net operating loss of \$1 thousand in the account which was charged to budgetary expenditure under parliamentary authority. In 1967-68 there was a net operating loss of \$267 thousand which together with a carry over of part of the 1966-67 loss was charged to budgetary expenditure.

Other expenditures included \$3 million for branch administration and \$4 million in contribu-

tions to provinces under the Crop Insurance Act compared with \$3 million and \$3 million respectively in 1967-68.

Research

Costs in respect of research institutes, experimental farms, laboratories, etc. totalled \$45 million, of which \$38 million was for administration, operation and maintenance and \$7 million for construction or acquisition of buildings, works, land and equipment. In 1967-68 expenditures were \$40 million of which \$34 million was for administration, operation and maintenance and \$6 million for construction or acquisition.

Canadian Livestock Feed Board

Outlays in respect of the Canadian livestock feed board amounted to \$18 million in 1968-69, \$3 million less than in the previous fiscal year, and consisted mainly of freight assistance and grain storage costs on western feed grains.

The policy of payments of freight assistance at specified rates on western feed grains shipped to Eastern Canada and British Columbia as feed for livestock and poultry was made to ensure a fair equalization of feed grain prices in those areas.

Health of animals

Expenditures of the health of animals division were \$20 million and included \$18 million for operation and maintenance costs. In 1967-68 expenditures were \$19 million of which \$17 million was for operation and maintenance.

Board of Grain Commissioners

Expenditures of \$11 million in respect of the board included \$7 million for inspection and weighing of grain and \$2 million in respect of Canadian government elevators. In 1967-68 expenditures were \$10 million and included \$5 million for inspection and weighing of grain and \$4 million for Canadian government elevators.

Farm Credit Corporation

The Farm Credit Act provides that the objects and purposes of the corporation are to make and to administer and supervise farm loans as provided in the act.

During the year the corporation had a net operating loss of \$6 million which was charged to budgetary expenditure under parliamentary authority. In 1967-68 a net loss of \$4 million was charged to budgetary expenditure.

Canadian Dairy Commission

Outlays in respect of the administration of the Canadian dairy commission totalled \$303 thousand compared with \$260 thousand in 1967-68.

Administration and general

These expenditures totalled \$8 million and included \$5 million for departmental administration, \$1 million for the information division and \$1 million for the economics division. In 1967-68 expenditures were \$6 million and included \$4 million for departmental administration, \$1 million for the information division and \$1 million for the economics division.

Communications

Expenditures of the Department of Communications for 1968-69 were \$355 million compared with \$316 million in 1967-68.

This is a new department which is comprised of the Post Office, the government telecommunications policy and administration bureau from the Department of Transport, a portion of the telecommunications and electronics branch of that department and elements of the defence research telecommunications establishment from the Defence Research Board. Previous year's figures have been adjusted for purposes of comparison.

⁽¹⁾ Charged to budgetary revenue.

Post Office

Costs of the Post Office in the amount of \$342 million charged to budgetary expenditures were \$40 million more than in 1967-68, due mainly to staff growth and to salary increases.

Costs of operations at \$243 million were \$37 million more than in the previous fiscal year and costs of movement of mail at \$89 million were \$2 million more.

Remuneration of postmasters and staffs at revenue and semi-staff offices and certain other authorized disbursements are paid from revenue. These payments at \$53 million (\$7 million more than in 1967-68) brought gross post office cash expenditures to \$394 million in 1968-69, compared with \$347 million in 1967-68.

As gross post office cash receipts totalled \$363 million including the \$53 million used for authorized disbursements from revenue, gross cash expenditures of \$394 million exceeded gross cash receipts by \$31 million in 1968-69. In 1967-68 gross cash receipts were \$327 million and gross cash expenditures were \$347 million.

However, it is to be noted that post office expenditures do not reflect any payments for premises occupied by the Post Office or for certain accounting and miscellaneous services provided by other departments, nor does post office revenue reflect any receipts for the franking privilege covering parliamentary and departmental mail or for certain miscellaneous services provided for other government departments and agencies. The services provided free by other departments were valued at \$69 million and those provided free by the Post Office including the franking privilege were valued at \$11 million in 1968-69 compared with \$57 million and \$10 million respectively in 1967-68.

Research satellite program

Outlays in respect of the research satellite program amounted to \$4 million in each year.

Administration and general

Other expenditures of the department totalled \$9 million compared with \$11 million in 1967-68.

Mines, minerals, energy and geosciences

Expenditures under this heading totalled \$55 million of which \$34 million was for administration, operation and maintenance, \$4 million was for construction or acquisition of buildings, works, land and equipment, \$1 million was for grants, contributions, Canada's membership fees in international organizations and Canada's share of the expenses of special committees and \$15 million was for assistance payments under the Emergency Gold Mining Assistance Act. In 1967-68, expenditures totalled \$54 million of which \$32 million was for administration, operation and maintenance, \$4 million for construction or acquisition, \$3 million for grants, contributions, etc. and \$15 million for gold mining assistance.

Emergency gold mining assistance payments were \$15 million in each year. These payments are made under authority of the Emergency Gold Mining Assistance Act to operators of gold mines to reduce the rate of decline in the gold mining industry as a result of increasing cost of equipment, supplies and labour and thus minimize the resultant hardships on dependent communities. The amount of assistance payable to the operator of a gold mine is calculated by a formula based on certain terms and conditions contained in the act. From the inception of the act on January 1, 1948 to the end of 1968-69, assistance payments have totalled \$264 million.

Costs of field and air surveys, mapping and aeronautical charting were \$12 million compared with \$11 million in 1967-68; outlays for geological research were \$11 million compared with \$10 million; outlays for mining and metallurgical investigations and research were \$9 million compared with \$8 million; costs of research in astronomy and geophysics were \$5 million in each year; and other costs were \$4 million compared with \$5 million.

Water and co-ordination of renewable resources programs

Expenditures for these programs totalled \$39 million of which \$26 million was for administration, operation and maintenance, \$10 million for construction or acquisition of buildings, works, land and equipment and \$3 million for grants including contributions to the provinces towards the construction of dams and other works in the conservation and control of water resources. In 1967-68 expenditures totalled \$41 million of which \$20 million was for administration, operation and maintenance, \$13 million for construction or acquisition and \$7 million for grants and contributions.

Outlays for marine surveys and research were \$18 million compared with \$20 million in 1967-68; outlays for research and investigations on water resources were \$16 million compared with \$14 million; and contributions to the provinces towards construction of dams and other works totalled \$3 million compared with \$7 million.

Administration and general

These expenditures totalled \$5 million, \$1 million higher than in 1967-68.

Atomic Energy of Canada Limited

Atomic Energy of Canada Limited received \$69 million in respect of its research program, of which \$59 million was for operation and maintenance and \$10 million for construction or acquisition of buildings, works, land and equipment. In 1967-68 the company received \$67 million of which \$57 million was for operation and maintenance and \$10 million for construction or acquisition.

In addition, loans in the amount of \$69 million were made to Atomic Energy of Canada Limited.

Atomic Energy Control Board

The Atomic Energy Control Board received \$4 million, \$1 million more than in the previous fiscal year, mainly for grants in aid of research and investigations.

Dominion Coal Board

This board was constituted under the authority of the Dominion Coal Board Act and is empowered to study, review, and recommend to the Minister, from time to time, such policies and measures it considers necessary respecting the production, importation, distribution and use of coal in Canada. Expenditures in 1968-69 of \$7 million included \$4 million for subvention payments in connection with the movement of coal under conditions prescribed by the Governor in Council and \$3 million in respect of payments to New Brunswick to assist in the rationalization of the Minto coal fields. In 1967-68 expenditures of \$34 million were mainly subvention payments in connection with the movement of coal.

National Energy Board

Outlays in respect of the national energy board were approximately \$2 million in each fiscal year.

External Affairs

Expenditures of the Department of External Affairs including the Canadian international development agency were \$226 million in 1968-69, \$10 million more than the total of \$216 million in 1967-68. The main changes were increases of \$7 million in outlays of the Canadian international development agency (formerly the external aid office) and \$5 million in outlays for administration, operation and maintenance, including representation abroad.

Outlays of \$10 million were made in respect to the united nations and its agencies, the same amount as in 1967-68, and outlays of \$2 million were made in respect of other international commissions and organizations, \$1 million less than in 1967-68. The main items were \$4 million to the united nations organization, \$2 million to the world health organization, \$1 million to the food and agriculture organization and \$1 million to the united nations educational, scientific and cultural organization.

Construction, acquisition or improvement of buildings, works, land, equipment and furnishings

Expenditures were \$7 million in 1968-69, of which \$4 million was in respect of residences and offices abroad. In 1967-68 expenditures were approximately the same.

Administration, operation, maintenance and general

These expenditures, which included representation abroad, totalled \$47 million compared with \$42 million in 1967-68. The increase was due mainly to salaries and allowances.

Finance

Expenditures of the Department of Finance amounted to \$2,416 million in 1968-69 compared with \$2,117 million in 1967-68. These expenditures do not include expenditures of the former Comptroller of the Treasury which are included in the Department of Supply and Services. Also reported under this heading are expenditures of the Auditor General's Office and the Department of Insurance which formerly were shown under separate headings. Previous year's figures have been adjusted for purposes of comparison.

The main items responsible for the increase of \$300 million were public debt charges which were \$179 million higher than in 1967-68 and payments to provinces which were \$130 million higher.

Public debt charges

Public debt charges are again the third largest item of budgetary expenditure, exceeded only by those for defence and those for health, welfare and social security.

Public debt charges consist of interest on the public debt, the annual amortization of bond discounts and commissions, the cost of issuing new loans and other costs incurred in servicing the public debt. These charges were \$1,480 million for 1968-69 or 14 per cent of all budgetary expenditure compared with \$1,301 million or 13 per cent for 1967-68.

Interest on public debt totalled \$1,442 million of which \$1,136 million was in respect of unmatured debt and \$306 million in respect of other liabilities. In 1967-68 total interest was \$1,270 million of which \$980 million was for unmatured debt and \$290 million for other liabilities.

The increase of \$156 million in interest on unmatured debt reflected higher interest rates and an increase in unmatured debt. Unmatured debt increased from \$20,580 million at March 31, 1968 to \$22,101 million at March 31, 1969. The average interest rate on the unmatured debt rose from 5.06 per cent at March 31, 1968 to 5.46 per cent at March 31, 1969. The increase in interest on other liabilities was due mainly to increases of \$7 million in respect of the public service superannuation account and \$7 million in respect of the Canadian forces superannuation account.

Other public debt charges at \$38 million were \$7 million more than in 1967-68.

(1) No interest is payable on a portion of these amounts. Interest was paid on \$92.5 million in 1964-65; \$97.5 million in 1965-66; \$92.1 million in 1966-67; \$87.5 million in 1967-68; and \$89.7 million in 1968-69.

(2) No interest is payable on a portion of these amounts. Interest was paid on \$5,590.5 million in 1964-65; \$6,089.6 million in 1965-66; \$7,400.8 million in 1966-67; \$8,427.5 million in 1967-68; and \$9,812.8 million in 1968-69.

When considering the magnitude of these public debt charges and the burden they place upon the public treasury, it must be borne in mind that a substantial portion of the debt is attributable to, or is invested in, productive or earning assets. Therefore, in calculating the net burden of the government's annual interest charges, the income derived from loans, investments and other productive assets must be taken into account. For 1968-69 this income totalled \$695 million as shown in the non-tax revenue section under the heading "return on investments". This amount deducted from the gross total of \$1,442 million for interest as shown in the table leaves a net amount of \$747 million compared with a net of \$658 million in 1967-68. Measured as a percentage of the net debt the burden of the net annual interest charges was 4.31 per cent in 1968-69 compared with 3.92 per cent in 1967-68. As a percentage of the gross national product for the calendar year ending within the fiscal year, the relative burden was 1.11 per cent compared with 1.06 per cent in 1967-68.

The following table presents the gross interest charges, the return on investments, the net interest charges, the net debt and the net interest as a percentage of the net debt for the fiscal years ended March 31, 1965 to 1969 inclusive:

Fiscal, subsidy and other payments to provinces

Budgetary expenditure under this classification was charged with \$867 million in 1968-69 compared with charges of \$737 million in 1967-68.

Charges of \$644 million under Federal-Provincial Fiscal Arrangements Acts consisted of payments of \$624 million to the provinces, credits of \$18 million to "loans to provincial governments" in partial recovery of overpayments set up as loans to provinces in 1967-68 and credits of \$2 million to "return on investments" as payment of interest on those loans. In 1967-68 payments to the provinces were \$602 million, but a recalculation of amounts due for the years 1962 to 1966 inclusive based on revised population figures for those years showed that overpayments totalling \$38 million had been made. As these overpayments were charged to the asset accounts "loans to provincial governments" the net charge to budgetary expenditure was \$564 million.

⁽³⁾ Partial recovery of overpayments referred to in footnote ⁽²⁾.

⁽⁴⁾ Interest on overpayments referred to in footnote ⁽²⁾.

⁽⁵⁾ Payments made to the Province of Quebec in respect of opting out agreements.

⁽⁶⁾ Recovered from payments to the Province of Quebec under the Federal-Provincial Fiscal Arrangements Act.

Payments of \$187 million under the Established Programs (Interim Arrangements) Act were made to the Province of Quebec in compensation to that province for its opting out of the following programs. Hospital insurance and diagnostic service, old age assistance, disabled persons allowances, blind persons allowances, unemployment assistance and Canada assistance plan; and in part, the general health grants program. Payments totalled \$153 million in 1967-68.

Subsidies to provinces payable under the British North America Acts and other statutory authority were \$32 million, the same as in 1967-68.

The transfer of certain public utility tax receipts was \$21 million in 1968-69, \$14 million more than in 1967-68 and represented the transferable portion of income tax received from corporations whose main business was the distribution to, or generation for distribution to, the public of electrical energy, gas and steam.

The Federal-Provincial Fiscal Revision Act, 1964, provides that where, in any fiscal year commencing on or after April 1, 1964, the federal savings in respect of a province providing schooling allowances exceeds the federal revenue abatement in respect of that province for the taxation year ending in that fiscal year, the Minister of Finance may, out of the consolidated revenue fund, pay to that province in respect of that fiscal year an amount equal to the excess and where for a taxation year ending in any fiscal year commencing on or after April 1, 1964 the federal revenue abatement in respect of a province providing schooling allowances exceeds the federal savings in that fiscal year in respect of that province, the amount of the excess may be deducted from any payment to that province under the Federal-Provincial Fiscal Arrangements Act or under any subsequent Act of the Parliament of Canada substituted therefor, or may be otherwise recovered as a debt due to Canada by that province. The abatement for the taxation year 1968 and the revised abatement for the taxation year 1967 in respect of the Province of Quebec exceeded the federal savings by \$17 million which has been recovered from payments to the province under the Federal-Provincial Fiscal Arrangements Act; in 1967-68 the abatement for the taxation year 1967 exceeded the federal savings by \$19 million and was recovered.

In addition to the above payments, \$1,260 million in provincial income taxes collected by the

federal government on behalf of the provinces was credited to the provincial tax collection agreements account in 1968-69 under the terms of the Federal-Provincial Fiscal Arrangements Act for allocation to the provinces compared with \$1,128 million in 1967-68. A more detailed explanation of these arrangements is given under tax revenue in this section.

A summary of payments, by provinces, during 1968-69 is given in the following table:

Family assistance

Children of immigrants and settlers are eligible for family assistance at the same rates as family allowances during their first year of residence in Canada. Payments amounted to \$4 million, \$1 million less than in 1967-68.

Youth allowances

Youth allowances totalled \$52 million compared with \$49 million in 1967-68. These allowances under provision of the Youth Allowances Act are payable at the rate of \$10 per month in respect of persons resident in Canada who have attained the age of 16 years and have not attained the age of 18 years and who are in full time attendance at a school or university or are by reason of mental or physical deficiency precluded from attending school or university.

No payments were made under this act in respect of persons resident in the Province of Quebec. However, under authority of the Federal-Provincial Fiscal Revision Act, 1964 abatements in federal income taxes otherwise payable by individuals resident in the Province of Quebec were allowed in compensation of the fact that the payment of youth allowances had been assumed by the province and to allow for the imposition of the required provincial income taxes.

Canada assistance plan

Payments to provinces under the Canada assistance plan totalled \$257 million compared with \$226 million in 1967-68. The Canada Assistance Plan Act which was enacted in 1966 authorized the federal government to enter into agreements with the provinces for sharing the costs of assistance and welfare services provided by the provinces, territories and municipalities to persons in need, including the costs of food, shelter, clothing, fuel and utilities, essential household supplies, expenses incidental to a trade, care in a home for special care, travel and transportation, funerals and burials, health care services, prescribed welfare services including rehabilitation, and comfort allowances. The rate of federal contribution is 50 per cent of the shareable costs; the rates for assistance granted and the specific conditions of eligibility applied are determined by the provinces and their municipalities and take into account the budgetary requirements as well as the income and resources of the applicants. Contributions under this plan have replaced certain contributions which formerly had been made under the Old Age Assistance Act, the Disabled Persons Act, the Blind Persons Act and the Unemployment Assistance Act.

Old age assistance, disabled persons allowances, unemployment assistance and blind persons allowances

Contributions to the provinces for old age assistance totalled \$3 million in 1968-69 compared with \$9 million in 1967-68, for disabled persons allowances \$6 million compared with \$7 million, for unemployment assistance \$1 million compared with \$6 million and for blind persons allowances \$2 million compared with \$2 million.

The decreases noted above were due mainly to the fact that certain contributions to the provinces which in prior years were made under the Old Age Assistance Act, the Blind Persons Act, the Disabled Persons Act and the Unemployment Assistance Act are now being made under the Canada assistance plan. The decrease in old age assistance payments was also due to the lowering of the age limit for old age security benefits.

Under the Old Age Assistance Act, the federal government reimburses the provinces by paying 50 per cent of the lesser of \$75 monthly or the amount of assistance given by the provinces in the form of monthly pensions to eligible persons in need who have attained the age of 65 years. (Under the Old Age Security Act, all persons who satisfy the residence requirements of the act may receive a pension of \$78 (\$75 up to January 1, 1968 and \$76.50 to January 1, 1969) per month from the federal government out of the old age security fund provided that no pension is paid in any month before January 1966 in which the person had not attained 70 years of age, the age limit being reduced by one in each subsequent year until 1970. An amendment to the Old Age Security Act authorizes the payment of a monthly guaranteed income supplement to eligible pensioners. The amount of the supplement that may be paid to a pensioner for a month is (a) in the year 1967, \$30, and (b) in any year after 1967, 40 per cent of the amount of the pension that may be paid to him for that month, dependent upon the amount of his income for the preceding year.)

Similarly, the federal government reimburses the provinces under the Blind Persons Act for allowances of not more than \$75 per month to blind persons in need 18 years of age or over by paying 75 per cent of the total payments, and under the Disabled Persons Act by paying 50 per cent of not more than \$75 per month for allowances to disabled persons in need 18 years of age or over.

Under the Unemployment Assistance Act, the Minister may, with the approval of the Governor in Council, enter into an agreement with any province for the payment by Canada to the province of contributions not exceeding 50 per cent of unemployment assistance costs in the province. Under federal-provincial agreement the Province of Quebec has opted out of a portion of this program.

The following table presents a distribution of these payments to provinces for 1968-69:

The number of recipients of payments for old age assistance, disabled persons allowances and blind persons allowances, together with the total payments in each of the fiscal years ended March 31, 1965 to 1969 inclusive, are shown in the following table:

TABLE 48

1969 ⁽²⁾	3	3.4	13	6.4	3	2.0

(1) The reduction in the number of recipients and the amount of payments is due to (a) the opting out of these programs by the Province of Quebec and (b) in respect of old age assistance also to the lowering of the eligible age for old age security payments from 70 years to 69 years from January 1, 1966, to 68 years from January 1, 1967, to 67 years from January 1, 1968 and to 66 years from January 1, 1969.

(2) The reduction in 1967-68 and 1968-69 was due mainly to the participation of the provinces in the Canada assistance plan.

Fitness and amateur sport

The Fitness and Amateur Sport Act provides for the encouragement, promotion and development of fitness and amateur sport in Canada. Expenditures were \$4 million in 1968-69, slightly more than in the previous year.

National welfare grants

These grants are made to provinces, welfare agencies and other institutions, on terms and conditions approved by the Governor in Council, to assist them to improve and develop welfare services. Grants totalled \$2 million in 1968-69, approximately the same as in the previous year.

HEALTH INSURANCE AND RESOURCES

Expenditures for health insurance and resources amounted to \$674 million in 1968-69 compared with \$549 million in 1967-68. The main items producing the increase of \$126 million were contributions under the Hospital Insurance and Diagnostic Services Act which totalled \$562 million compared with \$469 million in 1967-68 and contributions of \$33 million under the Medical Care Act, for which there were no contributions in 1967-68.

Government's contributions under the Hospital Insurance and Diagnostic Services Act

The Hospital Insurance and Diagnostic Services Act authorizes the Minister with the approval of the Governor in Council to enter into an agreement with any province to provide for the payment by Canada of contributions towards the cost of eligible hospital and diagnostic services incurred by the province. Agreements were made with all the provinces and territories, but under a federal-provincial agreement the Province of Quebec subsequently opted out of the program in 1962-63.

Contributions of \$562 million to the provinces in 1968-69 under this act were \$93 million more than in 1967-68.

Welfare services, allowances and other benefits

These payments amounted to \$113 million in 1968-69 compared with \$114 million in 1967-68. The decrease was due mainly to payments made under the War Veterans Allowance Act and the Civilian War Pensions and Allowances Act, which amounted to \$96 million in 1968-69 compared with \$98 million in the previous year. These payments are made principally to elderly, qualified persons who are incapable of maintaining themselves.

Treatment services

Costs of these services were \$72 million in 1968-69 compared with \$62 million in the previous year, reflecting the increasing costs associated with all aspects of medical care.

Operation and administration costs of hospitals totalled \$62 million compared with \$53 million in 1967-68, outlays for construction, improvements, equipment and acquisition of land were \$7 million compared with \$6 million in 1967-68 and treatment and related allowances were \$3 million in each year.

Soldier settlement and veterans land act

Payments in respect of the soldier settlement and veterans land act were \$10 million in 1968-69 and included \$5 million for administration and \$4 million as a provision for reserve of conditional benefits. In 1967-68 payments were \$10 million of which \$5 million was for administration and \$4 million as a provision for reserve.

Further information regarding the reserve for conditional benefits is given in section 4 under the veterans land act fund which is included in the asset category "other loans and investments".

This account records transactions in respect of federal-provincial tax collection agreements.

The balance in the account at March 31, 1969 was \$171 million, an increase of \$51 million over the balance at March 31, 1968. During the year provincial income tax collected by the federal government for the provinces amounted to \$1,260 million, of which \$1,089 million was personal income tax and \$171 million was corporation income tax, and payments to the provinces

totalled \$1,209 million. In 1967-68 collections totalled \$1,128 million, of which \$961 million was personal income tax and \$167 million was corporation income tax, and payments were \$1,100 million.

Guarantee deposits

These consist of cash and securities deposited with the Department of Indian Affairs and Northern Development as guarantees for oil, mineral and timber rights and licences, with the Department of Energy, Mines and Resources for oil, gas and mineral rights and with the Department of National Revenue as a guarantee of payment of customs duties and excise taxes on imported goods and of sales and excise taxes payable by licencees. Cash deposits are placed in the consolidated revenue fund and no interest is payable thereon. Bonds are held in the custody of the Minister of Finance and are recorded as a contra account in the asset category "securities held in trust".

At March 31, 1969 there was a balance of \$104 million in these accounts of which \$78 million was in respect of the Department of Indian Affairs and Northern Development, \$20 million in respect of the Department of Energy, Mines and Resources and \$6 million in respect of the Department of National Revenue. At March 31, 1968 there was a balance of \$49 million of which \$28 million was in respect of the Department of Indian Affairs and Northern Development, \$15 million in respect of the Department of Energy, Mines and Resources and \$6 million in respect of the Department of National Revenue.

Indian trust funds

These accounts record moneys belonging to Indian bands throughout Canada. Interest, at various rates, is credited thereto and charged to the budgetary expenditure item "interest on public debt".

The balance at March 31, 1969 was \$34 million, the same as at March 31, 1968. Interest of \$2 million was credited during the year.

Canadian Commercial Corporation—special deposit

This account was established in 1967-68 on behalf of the Canadian Commercial Corporation to record the deposit of funds received from the Netherlands Government for procurement of aircraft. During the year deposits totalled \$20 million and disbursements were \$44 million resulting in a balance at March 31, 1969 of \$14 million. In 1967-68 deposits totalled \$47 million and disbursements were \$9 million.

Canadian Dairy Commission

This account was established under authority of the Canadian Dairy Commission Act. Credited to the account are all moneys received by the commission from its operations, all licence fees, levies and charges paid to the commission, all loans made to the commission by the Minister of Finance and all amounts paid to the commission by the agricultural stabilization board for the purpose of stabilizing the price of any dairy product. Disbursements from the account are all purchases, benefit payments, costs of investigations, costs of promotion, etc. and all repayments of those loans made to the commission by the Minister of Finance.

During 1968-69 credits to the account totalled \$263 million and disbursements were \$264 million resulting in a balance of \$24 million at March 31, 1969. The credits included \$135 million from the agricultural stabilization board, \$55 million in loans by the Minister of Finance and \$71 million in proceeds from sales; disbursements included \$120 million in subsidy payments to producers, \$35 million in export equalization payments, \$69 million for purchases of dairy products and \$35 million was repayments of loans.

Crown corporations deposits

In 1957-58 the Governor in Council, in accordance with section 81(2) of the Financial Administration Act, authorized Crown corporations to deposit in the consolidated revenue fund, with the approval of the appropriate Minister and the Minister of Finance, that portion of their cash which was temporarily in excess of their current requirements. Where such deposits are for an unspecified term the rate of interest payable is determined on the basis of weekly treasury bill yields and where the deposits are for a specified term the rate of interest is based on the monthly average of market yields of Government of Canada bond issues.

Total deposits were \$16 million at March 31, 1969 compared with \$24 million at March 31, 1968. There were decreases of \$6 million in deposits of Eldorado Nuclear Limited and \$2 million in deposits of Atomic Energy of Canada Limited. The deposit of \$14 million of the Export Credits Insurance Corporation, corresponding to the paid up capital of \$5 million and paid up capital surplus of \$5 million which the corporation received from the consolidated revenue fund in previous years, plus the accumulated net earnings of \$4 million on the original capital investment in the corporation is non-interest-bearing.

Prairie farm emergency fund

The Prairie Farm Assistance Act provides for a levy of one per cent to be deducted by all licenced purchasers of grain, the amount so deducted to be credited to the prairie farm emergency fund. The levy is not collected in respect of grain grown by farmers who participate in approved crop insurance programs. Awards are made under the provisions of the act to farmers in the spring wheat area to meet crop failure conditions provided for in the act and are paid from this fund. During the year levies credited to the fund were \$8 million and awards totalled \$7 million resulting in a balance of \$14 million in the fund at March 31, 1969 compared with \$13 million at March 31, 1968.

Government annuities account

The balance in this account of \$1,325 million was \$1 million less than the balance at March 31, 1968. Receipts of \$66 million included \$15 million from premiums and \$51 million in interest from the government. Disbursements of \$67 million consisted mainly of vested annuity and commuted value payments and refunds of premiums. Old age security fund

The Old Age Security Act, 1951 directed that this fund be established and that credits to the fund should consist of a 2 per cent sales tax, a 2 per cent tax (maximum tax \$60) on individual incomes and a 2 per cent tax on corporation incomes, and that pension payments of \$40 per month be paid to all eligible persons over 70 years of age. Payments were effective from January 1952.

Amendments to the act have increased these tax rates: on individual incomes to 4 per cent effective January 1, 1964 (maximum tax \$120 increased to \$240 effective January 1, 1967); on corporation incomes to 3 per cent effective January 1, 1959; and on sales to 3 per cent effective April 10, 1959.

Pension rates also have been increased to \$75 per month effective October 1, 1963 and to \$76.50 per month effective January 1, 1968 and to \$78 per month effective January 1, 1969 by amendments to the act.

The act was further amended to authorize pension payments effective January 1966 to all persons who satisfied the residence requirements of the act who had attained the age of 69 years on or before January 1, 1966; the age limit being reduced by one year on January 1st of each subsequent year until 1970. A further amendment to the act in 1966-67 authorized the payment of a monthly guaranteed income supplement to eligible pensioners. The amount of the supplement that may be paid to a pensioner for a month is 40 per cent of the amount of the pension that may be paid to him for that month dependent upon the amount of his income for the preceding year.

During 1968-69 receipts of \$1,626 million exceeded pension payments of \$1,541 million by \$85 million, bringing the balance in the fund to \$621 million at March 31, 1969. Undisbursed balances of appropriations to special accounts

This category records the undisbursed balances of appropriations to special accounts from which disbursements may be made for authorized purposes. They fall into two classes. The first of these, comprising the majority of the accounts, consists of those cases where Parliament has appropriated moneys for specific purposes. The other class consists of accounts to which is credited moneys received from the sale of materials, supplies, equipment, land, works and buildings and which are available for purposes of the Department of National Defence. The balance of \$236 million was \$111 million more than the balance at March 31, 1968. The increase was due mainly to a new account "Contingency for salary revisions" which had a balance of \$121 million at March 31, 1969.

The amount of the credit drawn by December 31, 1951 was \$1,185 million and was to be repaid in 50 annual instalments beginning on that date with interest at 2 per cent per annum.

In accordance with an agreement between the Government of Canada and the Government of the United Kingdom there was a deferment of the payment of principal and interest due December 31, 1968, the principal outstanding at the close of the year remaining at \$957 million and deferred interest increasing by \$18 million to \$101 million. The agreement, approved by a 1957 Act to amend the United Kingdom Financial Agreement Act, 1946, permits the United Kingdom in lieu of any right of waiver hitherto existing to defer after December 31, 1956 seven instalments of principal and interest under certain conditions. The first of any such deferred instalments is payable on December 31, 2001 and the others annually thereafter in order. Interest at 2 per cent is payable on deferred instalments of both principal and interest. The United Kingdom under this agreement deferred the interest due on December 31, 1956 and principal and interest due December 31, 1957, December 31, 1964, December 31, 1965 and December 31, 1968.

Export Credits Insurance Act, Part II

Advances under Part II of the Export Credits Insurance Act to Belgium, France and The Netherlands to assist them in the purchasing of goods in Canada were reduced by a repayment of \$2 million, bringing the balance at March 31, 1969 to \$118 million. The decrease of \$2 million was the regular annual payment by the Government of Belgium. There were no repayments by the Governments of France and The Netherlands as each of these countries had made advance payments in 1962-63 covering instalments up to and including the 1969 instalment.

Miscellaneous loans and advances

The special loan assistance—developing countries account records loans, subject to terms and conditions as the Governor in Council may approve, made for the purpose of undertaking agreed-upon economic, educational and technical projects. The balance in the account at March 31, 1969 was \$93 million, an increase of \$49 million over the previous year-end balance, due mainly to additional loans of \$26 million to India and \$10 million to Pakistan.

Other loans and investments

These accounts totalled \$2,114 million at March 31, 1969, an increase of \$169 million over the total at the end of the previous fiscal year. The main changes were increases of \$83 million in loans to provincial governments, \$40 million in the veterans land act fund and \$27 million in subscriptions to the international development association.

Subscriptions to capital of, and working capital advances and loans to, international organizations

Canada's subscriptions to the capital of international organizations increased during the year from \$970 million to \$999 million at March 31, 1969.

Contributions to the international development association increased by \$27 million during the year bringing the balance to \$113 million at March 31, 1969.

Canada's subscription to the Asian development bank increased by \$3 million during the year bringing the balance to \$8 million at March 31, 1969.

Non-interest-bearing notes in respect of the international monetary fund, the industrial development bank and the Asian development bank are recorded under current and demand liabilities.

Working capital advances and loans to international organizations at \$7 million were the same as at March 31, 1968.

Loans to provincial governments

Loans to provincial governments totalled \$270 million at March 31, 1969, an increase of \$83 million over the total at the previous fiscal year-end. The increase in loans to Quebec was due mainly to the fact that the federal government accepted provincial notes in the amount of \$75 million to cover the province's share of the guarantee on the 1967 world exhibition loans. During the year \$14 million of these notes were repaid. Other changes included increases of \$43 million in loans pursuant to the Atlantic Provinces Power Development Act and repayments of \$18 million on loans set up under the Federal-Provincial Fiscal Arrangements Act.

Veterans land act fund

The veterans land act fund was established by an Act to amend the Veterans' Land Act, assented to June 30, 1965, to record advances made under the Veterans' Land Act, for the acquisition, by the Director, of properties, buildings, materials, livestock, farm equipment and commercial fishing equipment for purposes of the act, for sale to qualified veterans of world war 2 and Korea under sales agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veterans, and for progress payments to veterans during construction of housing. During 1968-69 advances amounted to \$71 million and repayments were \$31 million resulting in a balance of \$446 million at March 31, 1969. In 1967-68 comparable amounts were advances of \$103 million and repayments of \$30 million bringing the balance to \$406 million at March 31, 1968.

Partly offsetting these advances is the reserve for conditional benefits under the act which consists of amounts charged to budgetary expenditure, beginning with the fiscal year 1945-46, to cover one tenth of the amount of conditional benefits included in sales to veterans and credited to this account. As and when conditional benefits are earned the amounts are charged to the reserve and credited to the advances. During the year \$3 million was charged to the reserve account and additional reserves of \$4 million were credited thereto, resulting in a balance of \$24 million in the reserve account at March 31, 1969. During 1967-68 charges were \$3 million and credits were \$4 million resulting in a balance of \$23 million at March 31, 1968.

Municipal development and loan board advances

Under the Municipal Development and Loan Act, advances are made to the municipal development and loan board to provide financial assistance by way of loans to municipalities to augment or accelerate municipal capital works programs. Where the municipal project in respect of which a loan is made is completed on or before September 30, 1966, the board shall forgive payment by the municipality of 25 per cent of the principal amount of the loan. If a project is not completed as at September 30, 1966, the board shall forgive 25 per cent of that portion of the loan that has been advanced to the municipality as of September 30, 1966.

At March 31, 1969 advances totalled \$281 million, an increase of \$1 million over the total at March 31, 1968. The reserve for forgiveness of indebtedness reflected a nil balance at March 31, 1969 compared with \$1 million at March 31, 1968.

Miscellaneous loans and investments

Miscellaneous loans and investments totalled \$142 million at March 31, 1969 an increase of \$21 million over the balance at March 31, 1968 due mainly to increases of \$4 million in loans for defence plant modernization and \$8 million in loans to the Governments of the Yukon and Northwest Territories.

Loans to assist defence manufacturers for defence plant modernization, which are subject to the approval of the Treasury Board, amounted to \$14 million at March 31, 1969 compared with \$10 million in 1967-68.

Loans to the Government of the Yukon Territory for capital expenditures in the current year amounted to \$6 million and repayments were \$2 million, compared with loans of \$3 million and repayments of \$1 million in 1967-68. Loans to the Government of the Northwest Territories for capital expenditures in 1968-69 were \$5 million and repayments were \$1 million; in 1967-68 loans exceeded repayments by \$4 million.

Securities held in trust

Recorded herein are the security holdings in connection with various deposit and trust accounts and annuity, insurance and pension accounts. Bonds and certified cheques held in connection with contractors' securities included in the deposit and trust category are also recorded under this heading. The balance at March 31, 1969 was \$111 million, an increase of \$52 million over the previous fiscal year-end balance.

Deferred charges

These consist of the unamortized portions of actuarial deficiencies in the Canadian forces the public service and the Royal Canadian Mounted Police superannuation accounts and the outstanding balance of unamortized loan flotation costs.

The balances in these accounts totalled \$613 million at March 31, 1969 compared with \$492 million at March 31, 1968 reflecting increases of \$96 million in the unamortized portions of actuarial deficiencies in the superannuation accounts and \$25 million in unamortized loan flotation costs.

Unamortized portions of actuarial deficiencies

These accounts record the unamortized portions of the actuarial deficiencies in the superannuation accounts in respect of the Canadian forces, the public service and the Royal Canadian Mounted Police. Actuarial valuations are made quinquennially, the next of which will be made as at December 31, 1970 for the Canadian forces superannuation account, as at December 31, 1967 for the public service superannuation account and as at December 31, 1969 for the Royal Canadian Mounted Police superannuation account. Any actuarial deficiency revealed at that time will be credited to the superannuation account and charged to unamortized portions of actuarial deficiencies and amortized to budgetary expenditure in five equal annual instalments commencing in the fiscal year in

which the report is laid before Parliament. Also, the cost for benefits payable under the superannuation acts as a result of the authorization of salary increases are credited to the superannuation accounts and charged to the unamortized portions of actuarial deficiencies and amortized to budgetary expenditure over a period of five years commencing in the year in which the increase is authorized.

The unamortized portion of the actuarial deficiency in the Canadian forces superannuation account was \$243 million compared with \$188 million at March 31, 1968. During the year \$122 million was charged thereto as a result of salary increases and \$38 million to cover the deficit revealed by the quinquennial valuation made as at December 31, 1965 and \$105 million was amortized as a charge to budgetary expenditure.

The unamortized portion of the actuarial deficiency in the public service superannuation account was \$187 million compared with \$150 million at March 31, 1968. During the year \$121 million was charged thereto as a result of salary increases and \$85 million was amortized as a charge to budgetary expenditure.

The unamortized portion of the actuarial deficiency in the Royal Canadian Mounted Police superannuation account was \$21 million compared with \$16 million at March 31, 1968. During the year \$13 million was charged thereto as a result of salary increases and \$8 million was amortized as a charge to budgetary expenditure.

Unamortized loan flotation costs

This account records the residual balances of discounts, commissions, redemption bonuses and conversion premiums on loan flotations that have not been charged to budgetary expenditures. The balance of \$163 million was \$25 million more than the previous fiscal year-end balance.

Cost of new loans issued during 1968-69 and charged to the account amounted to \$81 million, of which \$29 million was in respect of treasury bills discounts which will be charged to interest on public debt in 1969-70. Credits to the account were \$56 million, of which \$30 million was a charge to the budgetary item "annual amortization costs" and \$26 million (representing discount applicable to 1968-69 on treasury bills sold in 1967-68) was a charge to the budgetary item "interest on public debt".

Treasury bills discounts applicable to the current fiscal year are charged to interest on public debt at time of sale. That portion of the discounts applicable to the subsequent fiscal year is charged to this account and transferred to interest on public debt in the following year.

Capital assets

Assets of the government such as land, buildings, works and equipment, etc., that are charged to budgetary expenditure at the time of acquisition or construction, are included in this category and are shown on the statement of assets and liabilities at a nominal value of \$1.

Inactive loans and investments

Loans and investments which are not currently revenue-producing or realizable are recorded herein. Included are the loan of \$49 million to China under the Export Credits Insurance Act, loans totalling \$24 million and \$7 million made to Roumania and Greece, respectively, in 1919-20 and 1920-21 and advances of \$15 million in respect of the implementation of guarantees (Ming Sung Industrial Company Limited).

Reserve for losses on realization of assets

There has been no change in this reserve since the fiscal year 1956-57. The balance at March 31, 1969 was \$546 million.

NET DEBT

At March 31, 1969 the net debt of Canada, which is the excess of gross liabilities over the net recorded assets, or, in effect, the overall deficit since Confederation, amounted to \$17,336 million compared with \$16,760 million at March 31, 1968. The increase of \$576 million reflected the 1968-69 budgetary deficit.

CONTINGENT LIABILITIES

In addition to its direct liabilities which are reflected in the statement of assets and liabilities of Canada, the government has assumed certain contingent liabilities, the details of which are set out in sections 6 and 7 of this volume.

The major categories of this indirect or contingent debt are the guarantee of insured loans under the National Housing Act, guaranteed bonds and debentures of the Canadian National Railways and the guarantee of deposits maintained by the chartered banks in the Bank of Canada. Also included are guarantees of loans made by chartered banks to the Canadian Wheat Board, to students under the Canada Student Loans Act and to farmers and veterans for certain authorized purposes, guarantees under the Export Credits Insurance Act and notes issued by the Canadian Corporation for the 1967 World Exhibition.

THE CASH POSITION

The government's cash account represents balances of current and special deposits to the credit of the Receiver General for Canada in the Bank of Canada, chartered banks in Canada and certain banks in London, New York, Paris, Brussels, Bonn, Rome and Frankfurt. These balances totalled \$602 million at March 31, 1969, a decrease of \$414 million from the balance of \$1,016 million at March 31, 1968.

The following statement summarizes both the budgetary and non-budgetary transactions for 1968-69 and indicates how they affected the government's cash position. For purposes of comparison the corresponding figures for 1967-68 are also shown.

(1) Excluding securities other than government issues.

The cash position of the government is affected not only by budgetary transactions but also by changes in the government's unmatured debt and other non-budgetary transactions. Non-budgetary transactions are those which affect the government's asset and liability accounts and must be taken into account when considering the full scope of the government's financial operations and their effect on the economy of the country.

On the asset side, the non-budgetary transactions consist, for the most part, of loans and advances to, and repayments by, Crown corporations and other government agencies and funds,

national, provincial and municipal governments, international organizations, veterans and other borrowers. On the liability side they relate mainly to receipts and payments in connection with the many deposit and trust accounts, and annuity, insurance and pension funds held or administered by the government.

In 1968-69 a deficit of \$576 million in budgetary transactions and net requirements of \$1,361 million for non-budgetary transactions (excluding unmatured debt transactions) resulted in a net cash requirement of \$1,937 million for the fiscal year. As transactions in unmatured debt during the year resulted in an increase of \$1,523 million in outstanding unmatured debt as at March 31, 1969, Receiver General bank balances were decreased by \$414 million. In 1967-68 the budgetary deficit of \$795 million and net receipts of \$206 million from non-budgetary transactions resulted in a cash requirement of \$589 million. As outstanding unmatured debt increased by \$790 million, Receiver General bank balances were increased by \$201 million.

Non-budgetary receipts and credits (excluding unmatured debt transactions)

Non-budgetary receipts and credits of \$1,996 million in 1968-69 included \$1,467 million in respect of annuity, insurance and pension accounts, \$113 million in repayments of loans, investments and advances and \$416 million in sundry other accounts.

Further details are given in the following table:

THE PUBLIC DEBT

SUMMARY

The public debt of Canada consists of those direct liabilities which appear on the government's statement of assets and liabilities. In addition the government has certain indirect or contingent obligations such as the guarantee of securities of the Canadian National Railways, insured loans made by approved lending institutions under the National Housing Act and deposits maintained by the chartered banks in the Bank of Canada.

At March 31, 1969 the government's liabilities as recorded on the balance sheet totalled \$35,919 million and net recorded assets totalled \$18,583 million resulting in a net debt of \$17,336 million.

The following table shows the gross public debt, the unmatured debt, net recorded assets and the net debt at March 31 for each of the fiscal years 1965 to 1969 inclusive:

Auditor General's Certificate

The above Statement has been examined in accordance with the provisions of the Financial Administration Act. I have obtained all the information and explanations I have required and, subject to the comments in my report to the House of Commons, I certify that the Statement is in agreement with the accounts maintained by the Department of Finance and that, in my opinion, it exhibits a correct view of the financial position of Canada as at March 31, 1969.

A. M. HENDERSON,
Auditor General.

Explanations regarding the general nature of the items in the Statement of Assets and Liabilities

ASSETS

1. (a) Cash represents balances of current and special deposits at credit of the Receiver General for Canada in banks in Canada, London, New York, Paris, Bonn, Brussels, Rome and Frankfurt and cash in hands of collectors and in transit. Cash in hands of collectors and in transit represents moneys received by public officers on or before March 31 but not deposited to the credit of the Receiver General of Canada until after that date. Indian agencies revenue trust bank accounts record moneys held in trust for Indians in authorized banks in Canada and temporary deposits in customs and excise bank accounts record moneys held as a security for the temporary entry of goods or to otherwise ensure compliance with various departmental regulations.
1. (b) This shows the temporary holdings by the Government of Canada at amortized cost of its own securities (including Canada savings bonds at par for resale to subscribers under the government employees instalment purchase plan).
1. (c) This category includes moneys received after March 31, but applicable to the current year, and Post Office moneys in hands of collectors and in transit at March 31. Accounts receivable, with the exception of those held as charges against departmental working capital advances, are not included in this statement. Summaries of accounts receivable furnished by departments are shown in the departmental sections of Volume II and an overall total by departments is shown in appendix No. 13, section 9 of this volume.
2. Departmental working capital advances constitute the advances outstanding at the close of the relative fiscal years for working funds of certain government departments.
3. This account records blocked currency on deposit in Canadian funds in the Central Bank of Chile to the credit of the Receiver General of Canada and blocked currency on deposit in the Bank of China, Peking, China.
4. These are advances to finance the purchase of gold and foreign exchange. The value of investments from advances on the basis of official parity rates on March 31, is also shown in parentheses.
5. This account records the special securities issued by the Government of the United States of America and purchased by Canada pursuant to the terms of the Columbia River Treaty between the Governments of the United States and Canada converted at \$1 U.S. = \$1.07625 Canadian.
6. The Canada Pension Plan Act, 1965 directed that this account be established to record the purchase and the sale of securities of the Government of Canada, of a participating province, or of any agent of Her Majesty in right of that province that is guaranteed as to principal and interest by the province. The amount by which the operating balance of the Canada pension plan account in any month exceeds the estimated amount required to meet all payments in the following three-month period is available for the purchase of securities of participating provinces. Securities of Canada shall be purchased with the excess remaining after purchasing securities of each province as required.
7. This account records holdings by the Government of Canada, at amortized cost, of its own issues.
8. Loans to, and investments in, Crown corporations represent the government's outstanding advances to Crown corporations for working capital, capital expenditure and other purposes, investment in the capital of corporations and advances to corporations for relending. The government equity in Crown corporations as recorded in the accounts of Canada as at March 31, 1969, together with the unrecorded government equity in the surpluses (less deficits), reserves, etc., of the Crown corporations at their respective years ended coincident with, or immediately prior to, the fiscal year ended March 31, 1969, is shown in appendix No. 12, section 9 of this volume.
9. Loans to national governments consist mainly of the loan to the Government of the United Kingdom under the authority of the United Kingdom Financial Agreement Act, 1946 and loans to foreign countries under the Export Credits Insurance Act for purchase of goods and services in Canada.

10. (a) This category records Canada's subscription to the capital of the Asian development bank, the international bank for reconstruction and development, the international development association, the international finance corporation and the international monetary fund and working capital advances and loans to international organizations.
10. (b) Under this heading are loans to provinces made under relief acts and other legislation.
10. (c) This account records loans made to provinces and municipalities under the Municipal Development and Loan Act, under which advances are made to the Municipal Development and Loan Board to provide financial assistance by way of loans to augment or accelerate municipal capital works programs. These loans carry specified conditional benefits if the terms of the agreements are fulfilled by the municipalities.
10. (d) This account records the cost of the acquisition of properties, building materials, livestock, farm equipment and commercial fishing equipment for purposes of the act for sale to qualified veterans of World War 2 and Korea under sale agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veterans.
10. (e) This category is composed of miscellaneous loans and balances receivable.
11. This category records the security holdings of various deposit and trust, and annuity, insurance and pension accounts.
12. (a) These accounts record the unamortized portions of the actuarial deficiencies in the Canadian forces superannuation account, the public service superannuation account and the Royal Canadian Mounted Police superannuation account which have been set up as deferred charges. Actuarial valuations are made quinquennially, the next of which will be made as at December 31, 1970 for the Canadian forces superannuation account, as at December 31, 1967 for the public service superannuation account and as at December 31, 1969 for the Royal Canadian Mounted Police superannuation account. Any actuarial deficiency revealed at that time will be credited to the account and charged to unamortized portions of actuarial deficiencies. The amount so credited will be charged to budgetary expenditure in five equal annual instalments commencing in the fiscal year in which the report is laid before Parliament. Also, the cost for benefits payable under the superannuation acts as a result of the authorization of salary increases will be credited to the superannuation accounts and charged to unamortized portions of actuarial deficiencies and amortized over a period of five years commencing in the year in which the increase is authorized.
12. (b) This account consists of discounts, commissions, redemption and conversion premiums on loan flotations remaining to be charged annually to expenditure. These costs are amortized in the case of general loans, over the period from the date of issue to the earliest call date, if one is specified, otherwise to the maturity date of the loan, and in the case of Canada savings bonds over a period of five years from date of issue.
13. This records at a nominal value of \$1 such capital assets of the government as land, buildings, works, equipment, etc., which, in accordance with long standing practice, are charged to budgetary expenditure at the time of acquisition or construction.
14. This group includes certain loans and advances which are not currently revenue-producing or realizable.
15. This reserve is provided for losses on realization of assets.

NET DEBT

16. The net debt of Canada is represented by the excess of liabilities over the net recorded assets, or, in effect, the deficit since Confederation.

LIABILITIES

17. (a) This is the balance of treasury cheques issued and unpaid on March 31, with the exception of those outstanding for ten years or more which have been transferred to non-tax revenue.
17. (b) This account represents the treasury cheques issued in April which are applicable to the previous fiscal year as authorized by section 35 of the Financial Administration Act.
17. (c) This account records non-interest-bearing notes payable to international organizations.
17. (d) This item represents the amount of matured bonds and other securities outstanding on March 31 with the exception of those transferred to revenue. In the fiscal year 1958-59 a new practice was introduced of transferring to non-tax revenue those matured bonds and other securities which are outstanding for 15 years after the date of call or of maturity, whichever is the earlier, but in no event less than five years after the date of maturity.
17. (e) This represents the amount of interest which has become due on the public debt but remains unpaid.

17. (f) This represents the amount of accrued interest to March 31 on the public debt but which is not due and payable until some future date.

18. The accounts in this category represent the government's liability for moneys deposited for various purposes. They fall into two broad classes. The first of these, comprising the large majority of the accounts, consists of those cases where the government acts virtually as trustee, administering the funds for the purpose for which they were created. The other class is the deposit accounts which cover mainly those cases where the government has received the moneys as a guarantee that work will be properly performed.
19. This category records the government's liability as an insurer of certain persons and as administrator of certain pension funds and government annuities. The government receives premiums or similar assessments and in turn pays out specific benefits. There is also included the uninvested portion of the unemployment insurance fund administered by the Unemployment Insurance Commission.
20. This category records the undisbursed balances of appropriations to special accounts from which disbursements may be made for authorized purposes. They fall into two classes. The first of these, comprising the majority of accounts, consists of those cases where Parliament has appropriated moneys for specific purposes. The other class consists of accounts to which is credited, under parliamentary authority, moneys arising from the sale of materials, supplies, equipment, land, works and buildings, which are available for the purpose of the Department of National Defence.
21. This account records the refundable tax on cash profits of businesses paid by all corporations not exempt from tax under section 62 of the Income Tax Act and by certain types of trusts on specified types of income.
22. This account records the estimated amount of the prorated provision to March 31, 1969 for the special compound interest feature applicable to certain Canada savings bonds. The balance at March 31, 1968 also included the estimated amount of the prorated provision to March 31, 1968 for the premium due at maturity on the then outstanding 1959 series of Canada savings bonds.
23. This category records those accounts which reflect amounts due to the government but in respect of which payment has been deferred. These are contra accounts to corresponding items in the assets.
24. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposal and others in respect of which accounting treatment is known but which are held for final disposition pending completion of certain conditions.
25. This account shows the unmatured debt of the Government of Canada which includes bonds payable in U.S. dollars in the amount of \$246,728,000 U.S. converted at the official parity rate of \$1 U.S. = \$1.08108 Canadian, bonds payable in Deutsche Marks in the amount of DM250,000,000 converted at the official parity rate of DM4 = \$1.08108 Canadian and bonds payable in Italian Lire in the amount of Italian Lire 62,500,000,000 converted at the official parity rate of Italian Lire 625 = \$1.08108 Canadian. Also included are special non-marketable bonds redeemable on thirty days notice held by the Unemployment Insurance Commission and special non-marketable bonds held in the Canada pension plan investment account.

H- 1 This account records Canada's quota in the international monetary fund.

In this organization, members' quotas are set in U.S. dollars and are normally paid in gold (25 per cent) and the remainder (75 per cent) in the member's currency. If the fund does not require a currency, this portion of a member's quota may be paid in the form of non-interest-bearing notes payable on demand, except for a cash working balance of at least one per cent. Whenever this working balance contains more than \$1 million in excess of this minimum requirement, the fund remits cash to the member and demand notes are substituted in round lots of \$1 million, conversely should the working balance fall below minimum requirements the reverse action takes place. These notes are carried as a liability of the Government of Canada under heading "current and demand liabilities".

When Canada joined the fund in 1946-47 its quota was set at U.S. \$300 million. This was raised to U.S. \$550 million in October 1959 and in May 1966 to U.S. \$740 million.

The balance in the account at March 31, 1969 was Can. \$782,655,246.

H- 2 Vote L23b, Appropriation Act No. 9, 1966 authorized the purchase of 2,500 shares of stock of the asian development bank, for the amount of \$25,000,000 U.S. = \$27,027,000 Can.

Canada's subscription to the capital of the asian development bank, as at March 31, 1969, consisted of stock in the amount of \$7,500,000 U.S. = \$8,108,100 Can., of which 50 per cent was purchased in cash and 50 per cent in non-interest-bearing notes payable on demand. These notes are carried as a liability of the Government of Canada under the heading "current and demand liabilities".

H- 3 This account records Canada's part paid subscription to the capital stock of the international bank for reconstruction and development. Canada has subscribed for 7,920 shares of the bank with a total subscription price of U.S. \$792,000,000 of which 10 per cent has been paid at a total cost of Can. \$85,023,249. The remaining 90 per cent is represented by a guarantee subject to call by the bank only when required to meet obligations of the bank for funds borrowed or loans guaranteed by it and not for use by the bank in its lending activities or for administrative expenses.

CANADIAN GOVERNMENT ELEVATORS

AUDITOR GENERAL OF CANADA

Ottawa, August 21, 1969.

THE CHIEF COMMISSIONER AND COMMISSIONERS,
BOARD OF GRAIN COMMISSIONERS FOR CANADA,
WINNIPEG, MANITOBA.

I have examined the balance sheet of the Canadian Government Elevators as at March 31, 1969 and the statement of operations for the year ended on that date. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion, the accompanying balance sheet and statement of operations present fairly the financial position of the Canadian Government Elevators as at March 31, 1969 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

A. M. HENDERSON,
Auditor General of Canada.

AUDITOR GENERAL OF CANADA

Ottawa, May 30, 1969.

THE HONOURABLE S. RONALD BASFORD,
MINISTER OF CONSUMER AND CORPORATE AFFAIRS,
OTTAWA.

Sir,

I have examined the accounts and financial statements of the Custodian for the year ended December 31, 1968 and have obtained all the information and explanations required.

The examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as were considered necessary in the circumstances.

The Addendum to the Statement of Assets and Liabilities explains the bases used in valuing various classes of assets vested in the Custodian.

As in previous years, income earned from cash funds held by the Custodian and from investments acquired from such funds was recorded as income of the Custodian.

Subject to the foregoing, I report that, in my opinion, the accompanying Statement of Assets and Liabilities and the Statement of Income and Expense present fairly the financial position of the Custodian as at December 31, 1968, and the results of his administration of the Revised Regulations Respecting Trading with the Enemy (1943) for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Yours faithfully,

A. M. HENDERSON,
Auditor General of Canada.

Payments under the Emergency Gold Mining Assistance Act, c. 95, R.S., as amended.. (10) \$ 14,727,193

Assistance is provided to gold mining operators under the above act to retard the closure of mines induced by increasing costs of production and a fixed price for gold, with the view to providing support for dependent communities. The act was passed on May 14, 1948, with payment effective for a period of three years from January 1, 1948, and has been extended subsequently from time to time. An amendment, passed on December 21, 1967, extended the act to the end of 1970.

The amount of assistance payable to the operator of a gold mine is calculated by a formula consisting of two factors: the "rate of assistance" which is based on the cost per ounce of gold produced from the mine, and the "assistance ounces" which are a specified proportion of the total ounces of gold produced. The assistance payable is computed under the current formula by adding twenty-five per cent to the product of the rate of assistance and the number of assistance ounces. The rate of assistance factor is two-thirds of the amount by which the average cost of production per ounce of gold for the calendar year exceeds \$26.50. The number of assistance ounces is two-thirds of the total number of ounces produced in the calendar year. The amount of assistance per ounce increases as the average cost of production per ounce increases from \$26.50 to \$45.00. A maximum rate of assistance of \$12.33 per ounce precludes an increase in the amount of assistance per ounce as the average cost of production rises above \$45.00 per ounce. To be eligible for assistance, a mine must produce at least fifty ounces of gold in a calendar year, and the value of the gold produced must be seventy per cent or more of the total value of the output of the mine.

Expenditures to date amounted to \$263,368,658 including the balance of \$2,075,409 in Emergency Gold Mining Assistance Holdbacks (see under the schedule, deposit and trust accounts, in volume I of this report) to provide for payment of holdbacks after final audit.

INTERNATIONAL JOINT COMMISSION

Chapter 28 of the Statutes of 1911, as amended, confirmed the signing of a treaty with the United States of America at Washington, January 11, 1909, "to prevent disputes regarding the use of boundary waters and to settle all questions which are now pending between the United States and the Dominion of Canada involving the rights, obligations or interests of either in relation to the other or to the inhabitants of the other, along their common frontier and to make provision for the adjustment and settlement of all questions as may hereafter arise".

The treaty further provided for the establishment and maintenance of a commission comprised of six commissioners, three on the part of each country. The United States and Canadian sections of the commission may each appoint a secretary. The salaries and personal expenses of the commissioners and the secretaries are paid by their respective governments and joint expenses are shared equally.

Under the provisions of the Federal-Provincial Fiscal Arrangements Act, the Minister of Finance was authorized, where applicable, to pay to each province a tax equalization payment, a provincial revenue stabilization payment, and an estate tax payment.

For the fiscal period 1967-72, the federal government undertook to pay equalization to all provinces whose per capita revenue potential at national average rates was below the average per capita revenue potential of all provinces. The equalization payable to such provinces is to be equivalent to their population multiplied by their deficiency in per capita revenue potential from the national per capita average. The federal government undertook for the same period to stabilize the net general revenues of each province at 95% of their yield for the previous year and to pay those provinces who abstained from the imposition of succession duties 75 per cent of the federal estate tax. For provinces that impose succession duties, the federal government undertook to contribute by abatement and/or payment 75 per cent of the federal estate tax in such provinces.

A distribution by provinces appears in the second column of the statement following the last sub-vote of this category.

Payments.....	(10)	—1,548,705
---------------	------	------------

Under the provisions of the Federal-Provincial Fiscal Arrangements Act, 1961, the Minister of Finance was, for the fiscal years 1962-63 to 1966-67, authorized, where applicable, to pay to each province a tax equalization payment, a provincial revenue stabilization payment, a succession duty payment, and additional grants to the Atlantic provinces and Newfoundland.

During 1968-69 the final determination of the estate tax entitlement for 1962-63 resulted in a net overpayment of \$1,548,705 which was recovered from other payments to the provinces.

Details of this net overpayment appear in the fourth column of the statement following the last sub-vote of this category.

Provincial Fiscal Revision Act, c. 26, 1964*

The Established Programs (Interim Arrangements) Act, 1964-65 stipulates that where a province that is participating in a program enumerated in schedule I of that Act, as amended, desires to have that program become a program that is to be wholly administered and financed by the province, the appropriate Minister and the Minister of Finance, with the approval of the Governor in Council and notwithstanding any provision of the authorizing instrument or any regulation made thereunder or in respect thereto, may together enter into a supplementary agreement on behalf of the Government of Canada with the province for the purpose of enabling the province to assume responsibility for that program. Where a province has entered into a supplementary agreement with respect to a standing program, the Minister of Finance may pay to that province a tax equalization payment computed in accordance with section 8 in respect of a calendar year for which an additional tax abatement has been provided under this Act in respect of that province. Quebec was the only province which entered into such an agreement for the current fiscal year.

The Federal-Provincial Fiscal Revision Act, 1964, c. 26, section 6, Youth Allowances Act provides that, where in any fiscal year commencing on or after April 1, 1964, the federal savings in respect of a province providing schooling allowances exceeds the federal revenue abatement in respect of that province for the taxation year ending in that fiscal year, the Minister of Finance may, out of the consolidated revenue fund, pay to that province in respect of that fiscal year an amount equal to the excess. It also provides that, where the federal savings in respect of a province providing schooling allowance is less than the federal revenue abatement, the Minister of Finance may deduct the amount by which the federal revenue abatement exceeds the federal savings from any payment to that province. Quebec was the only province providing schooling allowances in the fiscal year 1968-69.

An amount of \$16,791,335 was recovered by an equivalent deduction from the equalization payable to Quebec in the current fiscal year under the Federal-Provincial Fiscal Arrangements Act.

In accordance with the provisions of Section 75 of the Financial Administration Act I have examined the receipts and disbursements of the Office of the Auditor General for the year ended March 31, 1969. My examination consisted of a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion the accompanying statement of appropriations, expenditures and revenue and statement of assets present fairly the results of the operations of the Office of the Auditor General for the year ended March 31, 1969, in accordance with generally accepted accounting principles applied on a basis consistent with that of the previous year.

EXCHANGE FUND ACCOUNT

AUDITOR GENERAL OF CANADA

Ottawa, March 21, 1969.

THE HONOURABLE E. J. BENSON,
MINISTER OF FINANCE,
OTTAWA.

Sir,

In accordance with the requirement of subsection 2 of section 27 of the Currency, Mint and Exchange Fund Act, I have audited the Exchange Fund Account and the transactions in connection therewith for the year ended December 31, 1968.

The audit included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances. The Fund's holdings at the close of the year have been confirmed to us by the Auditors of the Bank of Canada.

Section 23 of the Act provides for advances to the Exchange Fund Account out of the Consolidated Revenue Fund and by Order in Council P.C. 1965-2290 of December 22, 1965 the Minister is authorized to make advances to a maximum amount of \$3,500,000,000. The amount actually advanced at December 31, 1968 was \$2,861,000,000, a net increase during the year of \$529,000,000. The accompanying statement shows that the Account included investments, currency and gold amounting to U.S.A. \$2,751,056,359 at December 31, 1968, the value of which in terms of Canadian currency at the par rate amounted to \$2,974,112,009. Investments are valued at cost with accrued interest.

Under the authority of the Bretton Woods Agreements Act and with the concurrence of the International Monetary Fund the Governor in Council fixed, on May 2, 1962, for the purposes of the Agreement for an International Monetary Fund, the par value of the Canadian dollar at one dollar equals U.S.A. \$.92½ or, in terms of the Canadian dollar, the United States dollar equals \$1.08108. The market rate for United States dollars may fluctuate from one per cent below par value to one per cent above par value.

The Account's holdings at December 31, 1968 were valued in terms of the Canadian dollar at par of exchange and, as a consequence, the valuation of the holdings at that date was \$22,744,359 greater than if the closing market rate of \$1.0728125 had been used.

With the transfer of the \$553,393 to the Consolidated Revenue Fund in 1968, the full amount of the net profits from trading operations in foreign exchange, gold and securities, and from the net valuation adjustments on unmatched purchases or sales for the two years 1964 and 1965 has been transferred. The 1966 net loss is to be reimbursed to the Account from Vote 46b, Appropriation Act No. 1, 1969, 1968-69, c.23.

In my opinion, the transactions in connection with the Account have been in accordance with the provisions of the Currency, Mint and Exchange Fund Act and the accompanying statement gives a fair summary of the transactions in connection with the Account for the year ended December 31, 1968 and shows truly and clearly the state of the Account as at that date.

A.M. HENDERSON

Auditor General of Canada.

MUNICIPAL DEVELOPMENT AND LOAN BOARD

(ESTABLISHED BY THE MUNICIPAL DEVELOPMENT AND LOAN ACT)

AUDITOR GENERAL OF CANADA

Ottawa, May 9, 1969.

To: MUNICIPAL DEVELOPMENT AND LOAN BOARD.....

THE MINISTER OF FINANCE

I have examined the accounts and financial statements of the Municipal Development and Loan Board for the year ended March 31, 1969 as required by section 19 of the Municipal Development and Loan Act. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

The Board has fulfilled the purposes for which it was established and all of the loans authorized by the Board had been fully disbursed at the year end. The staff and facilities of the Board have been taken over by the Canada Deposit Insurance Corporation.

In my opinion, the accompanying Statement of Loans Approved and Loan Disbursements and Statement of Loan Disbursements and Repayments present fairly the loan transactions of the Board for the year ended March 31, 1969 and the balance of loans recoverable as at that date; and the Statement of Expense presents fairly the expense of the Board for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The Fisheries Research Board of Canada, replacing the Biological Board of Canada, was established by the Fisheries Research Board Act, c. 121, R.S., as amended, to have charge of all Federal fishery research stations in Canada and to conduct and have the control of investigations of practical and economic problems connected with marine and fresh water fisheries, flora and fauna, and such other work as may be assigned to it by the Minister.

The research work conducted by the board includes all phases of the biology of fish stocks—including their reproduction, growth, enemies, behaviour and catchability; it also investigates the physics and chemistry of oceans and lakes as they affect fish production, methods and apparatus for catching fish and other valuable marine organisms, and the handling, processing, chemical composition, nutritive value and utilization of all fishery products.

The board consists of a chairman and not more than eighteen other members. A majority of the members of the board, not including the chairman, shall be scientists and the remaining members of the board shall be representative of the department and the fishing industry. As at 31 March, 1969 the board was comprised of the chairman, 10 scientific members, 7 members representing the fishing industry and 1 representing the department.

Section 14 of the Act provides that the board may expend such sums as are necessary for its work from moneys appropriated by Parliament, or from funds received through bequests, donations, the sale of natural history specimens, or from any other source.

This sub-vote was provided for operation of the small business development, welfare and northern public housing programs and covered costs of performing these functions in the Mackenzie and Arctic Districts of the Northwest Territories and Arctic Quebec, together with the branch headquarters' support organization. The headquarters organization provides support and technical advice to the commissioner of the Northwest Territories. (a) Small business development—This activity is devoted to the development of and broadening of the economic base of the Northwest Territories and Arctic Quebec, with special emphasis upon the material and sociological advancement of the Eskimo and Indian people of those areas. The program is directed toward the introduction and development of income producing activities for the native people in the areas of renewable resource harvesting, arts and crafts production, tourist development and the establishment and operation of secondary and service industries. Much effort is devoted toward the economic independence of individuals or groups through the co-operative development program, Eskimo loans and Eskimo small boat assistance and through the provision of technical and advisory services to small businesses. Surveys are conducted to identify new areas of economic potential; (b) Welfare—This activity is concerned with the social and basic material needs of residents of the Northwest Territories and Arctic Quebec. While much of the program is devoted directly to the alleviation of human suffering by provision of food, clothing and shelter with special attention directed to the care of the young, the aged and the physically infirm, increasing emphasis is being placed upon retraining, adoption, corrections and community development. The activity also provides for a relief program which serves to prevent starvation and physical debilitation; (c) Northern housing—The northern housing activity administers rental and resale housing programs for Indians and Eskimos in the Northwest Territories and Arctic Quebec and is concerned with construction programming, supervision of leasing and sales and collection of purchase payments and rents. This activity does not administer housing for public servants which is covered under the administration activity.

Payment of carrying costs of temporary wheat reserves and payments in connection with the Prairie Grain Advance Payments Act

Payment of carrying costs of temporary wheat reserves owned by the Canadian Wheat Board, the Temporary Wheat Reserves Act, c. 2, 1956

Payment..... (10) 48,912,253

The above statutory authority provides that where after July 31, 1955, the stocks of wheat of the Canadian Wheat Board exceed one hundred and seventy-eight million bushels at the commencement of a crop year, the Minister of Finance shall, out of the consolidated revenue fund, pay to the Board for each day in that crop year an amount equal to the portion of the said stocks that exceed one hundred and seventy-eight million bushels at the commencement of that crop year, multiplied by the carrying charge rate paid by the Board at the end of the immediately preceding crop year. If at the commencement of a crop year the stocks of wheat of the Board are not in excess of one hundred and seventy-eight million bushels, no payment shall be made by the Minister of Finance to the Board under this Act in respect of that or any subsequent crop year.

The stocks of wheat of the Canadian Wheat Board as at July 31, 1968 amounted to 423,161,991 bushels and, after the deduction of 178,000,000 bushels, as required by section 3 of the Act, the balance of stocks on which payment is based is 245,161,991 bushels. The total amount due the Board is \$48,912,253 which is the amount arrived at by multiplying the balance of stocks of 245,161,991 bushels by the carrying charge of .0624456331 cents per bushel per diem for the period August 1, 1968 to July 31, 1969.

The above amount represents the balance of payments for the crop year 1967-68 in the amount of \$11,659,633 and payments to March 31, 1969 for the crop year 1968-69 in the amount of \$37,252,620.

Payment in connection with the Prairie Grain Advance Payments Act, c. 2, 1957-58, as amended

Payment..... (10) 2,634,547

Section 15 of the Prairie Grain Advance Payments Act provides for payment to the Canadian Wheat Board of (a) interest charges paid or payable to the Board with respect to money borrowed by it or advanced on its behalf for the purposes of the Act, and (b) amounts of advance payments outstanding at the time of default, to the extent that the Board has not been reimbursed therefor after default.

The above amount consisted of interest charges of \$2,623,989 paid under section 15 (a) of the Act plus payment in respect of defaulted accounts \$18,788 less refunds in respect of defaulted accounts \$8,230. Cumulative payments to March 31, 1969, in respect of interest charges, were \$10,022,728 and in respect of defaulted accounts, were \$125,843. Refunds to March 31, 1969 in respect of defaulted accounts were \$61,358.

Payments of transitional assistance benefits in accordance with regulations approved by the Governor in Council to workers in automotive manufacturing and parts industries who became or have become unemployed as a result of the operation of the Canada-United States agreement on automotive products including undischarged commitments of previous years

Payments.....	(10)\$ 776,002	\$ 776,002	\$ 359,355

The variation between the appropriation and the total of expenditures charged thereto was due to the fact that:

(a) Lay-off of the workers in the industry was not as extensive as was first expected, and with the buoyancy of the labour market, alternative employment was fairly readily available.

(b) Most of the laid off workers who made claims for transitional assistance were disqualified because they were eligible for supplementary unemployment benefit which is a private unemployment benefit scheme provided for in the collective agreements of a number of Canadian companies.

UNEMPLOYMENT INSURANCE COMMISSION

The Unemployment Insurance Act, c. 50, 1955, as amended, authorizes the payment of unemployment insurance benefits to insured workers involuntarily unemployed. In addition, the Act provides for the establishment of a special account in the consolidated revenue fund to be known as the unemployment insurance fund— see unemployment insurance fund under the schedule, annuity, insurance and pension accounts, in volume I of this report. Also see the appendix to this section for the statement of position of the unemployment insurance fund as at March 31, 1969, and the statement of receipts and disbursements for the year ended March 31, 1969. The moneys credited to this fund are derived from contributions made by employed persons, employers of such persons and the Government of Canada and are to be utilized only for the payment of unemployment insurance benefits and any other payments permissible under the Act.

UNEMPLOYMENT INSURANCE FUND

AUDITOR GENERAL OF CANADA

Ottawa 4, July 16, 1969.

Sir,

Although no change has yet been made in the Unemployment Insurance Act giving effect to the recommendation of the Standing Committee on Public Accounts and the Committee of Inquiry into the Unemployment Insurance Act that the annual financial statements of the Commission be reported upon by the Auditor General, in keeping with the practice begun in 1962 the Commission has submitted its financial statements for the fiscal year ended March 31, 1969 to me for audit and report to you.

I now report that, in my opinion, the Statement of Position and the related Statement of Receipts and Disbursements of the Unemployment Insurance Fund present a fair view of the state of the Fund as at March 31, 1969 and a fair summary of the transactions for the year then ended.

Yours faithfully,

A. M. HENDERSON

THE HONOURABLE BRYCE MACKASEY
MINISTER OF LABOUR,
OTTAWA.

Auditor General of Canada.

Grants are available to the provinces upon terms and conditions approved by the Governor in Council and upon certification by the Minister that a province has agreed thereto. General conditions which apply to all grants are that the projects may be submitted as part of a satisfactory provincial plan or program for the development of the relevant health services, and that the province undertakes to (a) expend the moneys received out of its share of the grant for the development of the approved plan or program; (b) furnish from time to time, reports and statements of the expenditure to the Minister covering the development of the plan or program; (c) refund unexpended moneys on completion of any project or at the end of the fiscal year, whichever is earlier; and (d) maintain adequate records and accounts. Payment of grants is based on the submission of audited claims for reimbursement of expenditures made by provincial governments.

Payment in respect of that year to the provinces of Newfoundland, British Columbia and Northwest Territories was higher than estimated, and consequently, the amount of the revotes available to these provinces was overstated as follows:

	Estimates	Overestimate of revote	*Net amount available for commitment
Newfoundland	535,600	13,891	521,709

*Net amount only was made available to the provinces for commitment.

Contributions to the provinces under the Medical Care Act, c. 64, 1966-67..... (10) \$ 32,966,100

The act authorizes the payment of contributions by Canada towards the cost of insured medical care services incurred by provinces pursuant to provincial medical care insurance plans.

The act provides that Canada's contribution shall be paid in respect of each twelve-month period ending on March 31 and that the amount of the contribution to each participating province is to be based on a formula which gives consideration to (a) the per capita cost of all insured services in participating provinces for the year, and (b) he average number of insured persons in participating provinces for the year.

The provinces of Saskatchewan and British Columbia became participating provinces effective July 1, 1968, and the following advance payments, being 90 per cent of the estimated amount of contributions for the nine-month period concerned, were made to those provinces:

Saskatchewan.....	11,296,800
British Columbia.....	21,669,300

Contributions to the provinces under agreements entered into pursuant to the Hospital Insurance and Diagnostic Services Act, c. 28, 1956-57, as amended..... (10) \$561,932,586

The act authorizes the Minister, with the approval of the Governor in Council, to enter into an agreement with any province to provide for the payment by Canada of contributions towards the cost of insured hospital and diagnostic services incurred by the province. Agreements have been made with all the provinces and the territories.

The act provides that Canada's contribution shall be paid in respect of each calendar year and that the amount of the contribution to each province is to be based on a formula which gives consideration to (a) the per capita costs of in-patient services in Canada; (b) the per capita cost of in-patient services in the province; (c) the cost of out-patient services in the province; (d) the proportion of the population of the province entitled to insured services, and (e) the proportion of the year during which an agreement existed. A formula, similar in effect, is prescribed by the regulations for the calculation of monthly advances on account of contributions.

Family and youth allowances payments*Family allowances payments, Family Allowances Act, c. 109, R.S., as amended*

Payments.....	(10) 560,186,052
---------------	------------------

The above act, as amended, provides for payment of monthly allowances for all eligible children under the age of sixteen years who are resident in Canada. For administrative purposes, regional offices of the family allowances division have been established in each provincial capital.

Although application for registration of a child for family allowance is made by both parents, the allowances are normally paid to the female applicant, except in most unusual circumstances. There are certain eligibility requirements set out in the legislation including maintenance by the parent, school attendance, etc. The scale of monthly payment for each child is as follows: for children under 10 years of age—\$6 per month; for children from 10 to 16 years—\$8 per month. Payment ceases with the payment for the month in which the child reaches the age of 16 years.

Payments of allowances are made under authority of the act from unappropriated moneys in the consolidated revenue fund; but the administrative expenses are payable out of moneys appropriated by Parliament for the purpose (Vote 40).

A distribution, by provinces, of payments made to parents or other parties responsible for the maintenance of children eligible for such allowances follows:

Canada assistance plan—Payments to the provinces including residual payments under the Unemployment Assistance Act

Unemployment Assistance Act, c. 26, 1956, as amended.....	1,049,287
	(10) \$257,854,890

The Canada assistance plan authorized the federal government to enter into agreements with the provinces for sharing the costs of assistance and welfare services provided by provinces, territories, and municipalities to persons in need, including the costs of food, shelter, clothing, fuel and utilities, essential household equipment, expenses incidental to education or rehabilitation, care in a home for special care, travel and transportation, funerals and burials, health care services, prescribed welfare services, and comfort allowances. The rate of the federal contribution is fifty per cent of the shareable costs; the rates for assistance granted and the specific conditions of eligibility applied are determined by the provinces and their municipalities and take into account the budgetary requirements as well as the income and resources of the applicants.

The Unemployment Assistance Act, as amended, authorized the federal government to enter into an agreement with any province to provide for a federal contribution of 50 per cent of all unemployment assistance granted by a province or by a municipality. The Canada assistance plan is more embracing than the Unemployment Assistance Act and as provinces and territories sign agreements under the Canada assistance plan only residual payments are made under the Unemployment Assistance Act.

A. M. HENDERSON,

To: ECONOMIC COUNCIL OF CANADA
THE RIGHT HONOURABLE THE PRIME MINISTER

I have examined the accounts and financial transactions of the Economic Council of Canada for the year ended March 31, 1969, pursuant to the provisions of Section 20 of the Economic Council of Canada Act.

My examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion, the accompanying Statement of Expense presents fairly the financial transactions of the Economic Council of Canada for the year ended March 31, 1969, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Fund for Rural Economic Development—Project payments, c. 42, 1966-67..... (10) \$ 9,513,536

The Fund for Rural Economic Development provides a means of financing and carrying out certain comprehensive rural area development programs. It is aimed at rural areas where the roots of economic and social stagnation go so deep that the normal programs of government for rural areas and rural people cannot be expected to bring about a rapid improvement. These are the areas that are held down by the self-perpetuating evils of poverty, lack of social capital and development, and inadequate education.

During the fiscal year 1968-69 agreements were entered into with the provinces and expenditures were as follows:

New Brunswick			
Mactaquac area agreement.....		940,997	
Northeast New Brunswick agreement.....		3,172,745

ATLANTIC DEVELOPMENT BOARD

AUDITOR GENERAL OF CANADA

Ottawa, June 30, 1969.

THE HONOURABLE JEAN MARCHAND,
MINISTER OF REGIONAL ECONOMIC EXPANSION,
OTTAWA.

I have examined the accounts and financial transactions of the Atlantic Development Board for the year ended March 31, 1969 as required by section 18 of the Atlantic Development Board Act. My examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as I considered necessary in the circumstances.

The Atlantic Development Board Act was repealed on April 1, 1969 and, accordingly, the Atlantic Development Board and the Atlantic Development Fund ceased to exist on that date. The outstanding commitments of the Board at March 31, 1969 however, will be honoured by the Department of Regional Economic Expansion which was established on April 1, 1969 by the Government Organization Act, 1969.

In my opinion, the Statement of Expenditure and the supporting schedules present fairly a summary of the financial transactions of the Board for the year ended March 31, 1969.

A. M. HENDERSON,
Auditor General of Canada.

NATIONAL FILM BOARD

Ottawa, July 16, 1969

AUDITOR GENERAL OF CANADA

THE CHAIRMAN AND MEMBERS,
NATIONAL FILM BOARD,
OTTAWA.

I have examined the Balance Sheet of the National Film Board as at March 31, 1969 and the Statement of Income and Expense for the year ended on that date. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion, the accompanying Balance Sheet and Statement of Income and Expense present fairly the financial position of the Board as at March 31, 1969 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

A. M. HENDERSON,
Auditor General of Canada.

The accompanying notes are an integral part of the financial statements.

Certified correct:

D. B. E. GREENWAY,
*Director of Financial and
Administrative Services.*

Approved:

H. McPHERSON,
Government Film Commissioner.

I have examined the above Balance Sheet and the related Statement of Income and Expense and have reported thereon under date of July 16, 1969 to the Chairman and Members of the National Film Board.

A. M. HENDERSON,
Auditor General of Canada.

NATIONAL MUSEUMS OF CANADA

AUDITOR GENERAL OF CANADA

Ottawa, July 15, 1969.

MR. JEAN-PAUL W. OSTIGUY,
CHAIRMAN OF THE BOARD,
NATIONAL MUSEUMS OF CANADA,
OTTAWA.

Sir,

I have examined the accounts and financial transactions of the National Museums of Canada for the year ended March 31, 1969 pursuant to section 21 of the National Museums Act.

My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

The following financial statements for the year are attached:

Statement of Expenditure	Exhibit I
Summary of National Museums Purchase Account Transactions	Exhibit II
Summary of National Museums Trust Account Transactions	Exhibit III
Summary of National Museums Special Account Transactions	Exhibit IV

Exhibit I combines the expenditures paid out of the Parliamentary appropriations for the administration, operation and maintenance of the Museums, including grants, with expenditures paid out of the National Museums Purchase Account and the National Museums Trust Account.

The National Museums of Canada, effective April 1, 1968, assumed responsibility for the operation of a working capital advance formerly operated by the Department of Secretary of State. The Advance was established pursuant to Vote L74b, Appropriation Act No. 2, 1966 for the purposes of acquiring, for resale to the public, articles related to the purposes and activities of the Museums. The control over inventories was such that it was not possible to distinguish between items purchased through the medium of the Advance or through Parliamentary appropriations. Furthermore, the inventory taken at March 31, 1969 was not valued so that it was not possible to prepare adequate and meaningful financial statements. The balance of the Advance at March 31, 1969 was recorded at \$6,406.

Subject to the foregoing, in my opinion, the attached financial statements are properly drawn up so as to exhibit fairly the expenditures of the National Museums of Canada and the transactions in the National Museums Purchase Account, the National Museums Trust Account and the National Museums Special Account for the year ended March 31, 1969 in accordance with generally accepted accounting principles.

Yours faithfully,

A. M. HENDERSON
Auditor General of Canada.

I have examined the above Statement of Transactions and have reported thereon under date of September 10, 1969 to the Solicitor General.

A. M. HENDERSON
Auditor General of Canada

AUDITOR GENERAL OF CANADA

Ottawa, September 10, 1969.

THE HONOURABLE G. J. McILRAITH,
SOLICITOR GENERAL,
OTTAWA.

Sir,

In compliance with the requirements of section 88 of the Royal Canadian Mounted Police Pension Continuation Act I have examined the accounts and financial statement of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1969. My examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion the accompanying Statement of Transactions of the Fund gives a fair summary of its transactions for the year ended March 31, 1969 and the balance of the Fund as at that date.

Yours faithfully,

A. M. HENDERSON
Auditor General of Canada.

DEFENCE PRODUCTION REVOLVING FUND

AUDITOR GENERAL OF CANADA

Ottawa, July 28, 1969.

THE HONOURABLE JAMES A. RICHARDSON,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA.

Sir:

I have examined the Balance Sheet of the Defence Production Revolving Fund as at March 31, 1969 and the Statements of Trading Operations and of Deficit for the year ended on that date. My examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as I considered necessary in the circumstances.

In previous reports I have noted that, although section 16(2)(c) of the Defence Production Act, R.S., c. 62, expressly prohibits the making of loans from the Revolving Fund to assist in the acquisition of capital equipment, advances for this purpose were made from the Revolving Fund to manufacturers under a Defence Industry Modernization Program prior to March 31, 1967. The balance of these advances outstanding at March 31, 1969, included in Accounts receivable, amounts to \$6,216,853, as compared with \$8,522,044 at the previous year-end. Since April 1, 1967 all loans of this nature have been charged to parliamentary appropriations of the Department of Industry, Trade and Commerce provided for this purpose.

I now report that, in my opinion, subject to the foregoing, the accompanying Balance Sheet and Statements of Trading Operations and of Deficit present fairly the financial position of the Fund as at March 31, 1969 and the results of its trading operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year, except for the change, of which I approve, in the recording of the claims for progress payments from customers as referred to in Note 1 to the financial statements.

Yours faithfully,

A. M. HENDERSON,
Auditor General of Canada.

Notes to the Financial Statements at March 31, 1969

1. At March 31, 1969, amounts receivable from customers in respect of work in progress on contracts entered into on their behalf, amounting to \$3,967,086, have been included in Accounts receivable and Progress payments from customers. The corresponding 1968 figures have been adjusted by \$2,261,430 to facilitate comparison. In prior years these amounts were part of the difference between Progress payments to suppliers and other recoverable costs and Progress payments from customers. This year the difference represents only payments that cannot be billed to customers until delivery has been completed.
2. A major part of the inventories of strategic materials consists of raw quartz which cost \$6,061,726 and for which there is little market. Sales in recent years have realized about 25% of the original cost. The remaining inventories costing \$107,259 have an estimated realizable value of \$85,000.
3. A shortage of 314,816 pounds of cobalt was discovered in May 1965. The cobalt cost \$1,188,599 and its estimated realizable value at March 31, 1965 was \$557,224. An amount of \$48,882 has been recovered to date and it is estimated that a further \$437,000 may be recovered shortly. As a consequence, the amount to be written off will be about \$703,000.

QUEEN'S PRINTER'S ADVANCE

AUDITOR GENERAL OF CANADA

Ottawa, July 22, 1969.

THE HONOURABLE JAMES A. RICHARDSON,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA

Sir,

I have examined the Balance Sheet of the Queen's Printer's Advance operated by the Canadian Government Printing Bureau as at March 31, 1969, and the related Statement of Operations for the year then ended. My examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as I considered necessary in the circumstances.

As indicated in the notes to the financial statements, the Printing Bureau has continued the practice followed in the past three years of charging to cost of sales the full cost of equipment purchased during the year, amounting to \$538,119. In addition, the cost of monotype and linotype metals and matrices has been amortized over periods of one to three years regardless of the extent to which the metal is used in any year. The estimated residual value of these metals and matrices in use in the plant at March 31, 1969, amounting to \$484,000, has not been included in the inventories at that date.

In my opinion, subject to the foregoing, the accompanying Balance Sheet and Statement of Operations present fairly the financial position of the Queen's Printer's Advance as at March 31, 1969, and the result of operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Yours faithfully,

A. M. HENDERSON

DEPARTMENT OF DEFENCE PRODUCTION
(SUPPLY COMPONENT OF THE DEPARTMENT OF SUPPLY AND SERVICES)

AUDITOR GENERAL OF CANADA

Ottawa, July 31, 1969

THE HONOURABLE J. A. RICHARDSON,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA.

Sir,

I have examined the Statement of Assets and Liabilities of the Department of Defence Production as at March 31, 1969 which includes capital and other assets acquired through the medium of parliamentary appropriations for which the Department is accountable. My examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as I considered necessary in the circumstances.

Accounts receivable at March 31, 1969 include an accrual of \$252,096 in respect of rental revenue. The figures at March 31, 1968 have been adjusted to reflect an accrual of \$190,620 receivable on that date.

In accordance with established government practice all assets are carried at cost, no provision having been made for known diminution in value of the clothing and footwear or for depreciation of the capital assets.

In my opinion, subject to the foregoing, the accompanying Statement of Assets and Liabilities presents fairly the financial position of the Department as at March 31, 1969 in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Yours faithfully,

A. M. HENDERSON,
Auditor General of Canada.

DEPARTMENT OF DEFENCE PRODUCTION—*Concluded*

(SUPPLY COMPONENT OF THE DEPARTMENT OF SUPPLY AND SERVICES EFFECTIVE APRIL 1, 1969)

Notes to the Statement of Assets and Liabilities at March 31, 1969

1. The Department of Defence Production ceased to exist on April 1, 1969 when section 3 of the Defence Production Act establishing the Department was repealed by the Government Organization Act, 1969, which came into force on that date. This Act established the Department of Supply and Services which is responsible for the supply activities formerly carried on by the Department of Defence Production.
2. At March 31, 1969 the Minister of Defence Production was responsible for the operations of Polymer Corporation Limited, Canadian Arsenals Limited, Crown Assets Disposal Corporation and Canadian Commercial Corporation. In addition to the recorded investments in these corporations, the Crown had equity which has not been recorded in the accounts of the Department as follows:
 - \$75,826,000 in the retained earnings of Polymer Corporation Limited and its subsidiaries at December 31, 1968, an increase of \$2,696,000 for the year ended on that date;
 - \$7,861,440 in Crown Assets Disposal Corporation at March 31, 1969, comprising \$100,000 in retained earnings in the General Account and \$7,761,440 in the Agency Account relating mainly to accounts receivable under long-term interest bearing sales agreements, an increase of \$504,000 for the year ended on that date; and
 - \$322,515 in Canadian Commercial Corporation at March 31, 1969, comprising \$99,666 unrealized profit on U.S. exchange and \$222,849 Reserve for Contingencies, a decrease of \$83,000 for the year ended on that date.
3. In addition to the fixed assets shown on the Statement of Assets and Liabilities, the Department was responsible for special production tooling, dies and jigs costing \$170,871,323 located in warehouses and contractors' plants, title to which is vested in the Crown.
4. An action for recovery of \$2 million from the Department of Defence Production for infringement of patents is currently in litigation. The amount includes \$1.6 million in respect of purchases made by the Canadian Commercial Corporation on behalf of its customers. Departmental legal officers are of the opinion that the action can be successfully defended.

CENTRAL DATA PROCESSING SERVICE BUREAU
WORKING CAPITAL ADVANCE

AUDITOR GENERAL OF CANADA

Ottawa, July 28, 1969.

THE HONOURABLE JAMES A. RICHARDSON,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA.

Sir,

I have examined the Balance Sheet of the Central Data Processing Service Bureau Working Capital Advance as at March 31, 1969 and the Statement of Operations for the year ended on that date. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

The debit balance of \$356,337 in the working capital advance account at March 31, 1969 resulted from a decision of the Bureau to restrict the working capital advance to \$1 million instead of the statutory limit of \$1 million plus amounts due from government departments and agencies. As a consequence of this decision, the payments of the liabilities that were outstanding at March 31 could not be recorded in the working capital advance account for the fiscal year. On the other hand, collection of receivables subsequent to March 31, amounting to \$1,181,398, paid from the 1968-69 appropriations of the government departments and agencies concerned, were recorded in the Account for the fiscal year.

Supply and Services Vote 16b provided \$128,600 for the "reimbursement of the Central Data Processing Service Bureau Working Capital Advance for a portion of the Bureau's operating loss incurred during the fiscal year 1967-68." Although the Bureau realized a profit in 1967-68 amounting to \$2,411, it recovered \$128,597 from this Vote in respect of expenses incurred during 1967-68 on behalf of the Department of Forestry (Agricultural and Rural Development Act).

Subject to the foregoing, in my opinion the accompanying Balance Sheet and Statement of Operations present fairly the financial position of the Bureau as at March 31, 1969 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Yours faithfully,

A. M. HENDERSON,
Auditor General of Canada.

*Amounts in this column represent expenditures made from Parliamentary appropriations only.

In accordance with section 29 of the National Harbours Board Act, c. 187, R.S., as amended, certificates of indebtedness for \$5,029,738 bearing interest at 6 11/16% per annum and \$78,164 at 7 3/8% per annum, were issued to the Government of Canada to cover the above expenditures.

Expenditures reported under projects include amounts charged to appropriations and to the replacement fund and the Board's revenues where applicable.

The variation between the appropriation and the total of the expenditures charged thereto was due in part to the fact that some of the year's expenditures were charged to the Board's own funds rather than to the appropriation; the remainder of the variation was due, principally, to the fact that work on some projects did not proceed as rapidly as had been originally anticipated.

Estimates	Allotments	*Expenditures
\$ 14,700,000	\$ 14,700,000	\$ 6,451,326

*Amounts in this column represent expenditures made from Parliamentary appropriations only.

In accordance with section 29 of the National Harbours Board Act, c. 187, R.S., as amended, certificates of indebtedness for \$5,954,767 bearing interest at 6 11/16% per annum and \$496,559 at 7 3/8% per annum, were issued to the Government of Canada to cover the above expenditures.

Expenditures reported under projects include amounts charged to appropriations and to the replacement fund and the Board's revenues where applicable.

The variation between the appropriation and the total of the expenditures charged thereto was due in part to the fact that some of the year's expenditures were charged to the Board's own funds rather than to the appropriation; the remainder of the variation was due, principally, to the fact that some projects did not commence and others did not proceed as rapidly as anticipated.

Payments of \$19,517 to James Bissett, \$13,759 to Ernest Edward De Redder, \$54,458 to A Escott Co Ltd, \$117,944 to Osborne Shipyards Ltd and \$280,045 to Seymour Sawmills Ltd were made under authority of P.C. 1968-1266, June 28, 1968 for expropriation of land at Vancouver.

Payment of \$121,000 under authority of P.C. 1968-14/129, January 25, 1968 was made to John L Girard for acquisition of land at Vancouver.

Payment of \$65,000 under authority of P.C. 1968-14/1810 of September 24, 1968 was made to Western Chemical Industries Ltd in full and final settlement of all compensation-claims arising out of the expropriation of November 26, 1965 of certain property at Vancouver.

Government's contribution to the superannuation account in an amount equal to the estimated current and arrears payments of individual contributors in the previous fiscal year and the amortization of actuarial deficiencies arising out of salary revisions, c. 47, 1952-53, as amended, and Finance Vote 16d, Appropriation Act No. 10, 1964

A Details in respect of contributions to, and payments from, the superannuation account are shown in appendix 2 to this section (see also the schedule, annuity, insurance and pension accounts, in volume I of this report).

B The Statute Law (Superannuation) Amendment Act, 1966 approved an amendment to the Public Service Superannuation Act, which requires the crediting to the superannuation account following the authorization of any salary increase applicable to at least 1% of those persons employed in the Public Service who are contributors, in five equal annual instalments commencing in the fiscal year in which the salary increase is authorized, such amount as in the opinion of the Minister of Finance is necessary to provide for the increase in cost to Her Majesty of the benefits payable under the Public Service Superannuation Act as a result of such salary increase. In practice, the superannuation account is credited with the full amount of the actuarial liability resulting from such a salary increase and a deferred charge established which is amortized in the method described by the Statute Law (Superannuation) Amendment Act.

A Under authority of this Act, provision was made for the retirement and payment of allowances, under stipulated conditions, to certain members of the public service who were not eligible for annual retiring allowances under the Superannuation and Retirement Act, c. 17, R.S., 1906. Retirements were all effected prior to November 1, 1924, on which date the retirement provisions of the Act expired (c. 69, 1924).

B This Act provides that the Governor in Council may grant to a widow an annual allowance, payable until death or remarriage, of an amount equal to one-fourth of the allowance her husband received under the Superannuation and Retirement Act, c. 17, R.S., 1906, or would have received if, at the time of his death, he had been retired under the Act.

C The Canadian Branch of the Royal Mint became the Royal Canadian Mint, a branch of the Department of Finance, on December 1, 1931. The above authority includes provision for payment to those employees who did not elect to become contributors under the provisions of the Civil Service Superannuation Act, c. 24, R.S., 1927, of the same benefits they would have received if they had remained under the provisions of the United Kingdom Superannuation Act then in force.

Under the above authority, an amount not exceeding \$2,320 may be granted by the Director, Veterans' Land Act, to an Indian veteran who settles on Indian reserve lands, the said grant to be paid to the Minister of Indian Affairs and Northern Development, who shall have the control and management thereof on behalf of the Indian veteran.

Reduction of Veterans' Land Act advances, Veterans' Land Act, c. 280, R.S., as amended..... (10) \$ 16,598

The above charge represented the net amount of losses due to the resale prices of reverted properties being less than the outstanding debts on such properties. The offsetting credit was to Veterans' Land Act fund—see under the schedule, other loans and investments, in volume I of this report. The loss to the federal government on the resale of reverted properties is partially offset by the consequent reduction of approximately \$3,393 in the re-establishment credits which would otherwise have been available to the veterans concerned.

Provision for reserve for conditional benefits, Veterans' Land Act, c. 280, R.S., as amended..... (10) \$ 4,323,342

Sales of land and chattels are made to veterans at less than the cost to the Director, conditional upon the terms of the agreement of sale being fulfilled for a period of ten years.

In each of the ten years, one-tenth of the amount of conditional benefits included in sales to veterans is charged hereto and credited to Reserve for conditional benefits, Veterans Land Act. As and when conditional benefits are earned, the amounts are charged thereto and credited to Veterans Land Act fund—see under the schedule, other loans and investments, in volume I of this report.

DEPARTMENT OF NATIONAL REVENUE—TAXATION

Remission of income tax:

Acres, H G & Company Limited 145,358

P.C. 1968-21/971, May 22, 1968, authorized the remission of income tax payable and interest payable thereon in respect of the taxation years 1964 and 1965. Prior to 1960, 40% of the issued shares of the company were held by Conesco Limited, an Ontario Company and 60% were held by Fluor Corporation of Canada Limited, an American subsidiary. In August 1960, H G Acres and Company Limited borrowed \$1,500,000 to pay dividends. The dividends received by Conesco, as 40% owner, enabled it to complete a purchase of Fluor's 60% interest. The result of the borrowing transaction was to permit Canadian shareholders to acquire control of H G Acres and Company Limited from foreign shareholders. Interest paid on loans used to pay dividends is not deductible from income but, due to the application of business losses, tax was payable by the company only in the 1964 and 1965 taxation years.

Becton, Dickinson and Company 31,835

P.C. 1969-22/113, January 21, 1969, authorized the remission of income tax paid in respect of the taxation years 1962 and 1963. The above named American company and its subsidiaries, B-D Laboratories Incorporated and The Wilson Rubber Company have paid Canadian federal income tax since 1959. As a result of a 1958 ruling from the Province of Ontario, these companies did not consider themselves subject to Ontario provincial income tax. In 1968, the Province of Ontario assessed the companies for taxation years 1962 to 1964 inclusive. The normal provision for deducting a portion of the provincial income tax paid from income earned in the Province for federal income tax purposes did not apply to 1962 and 1963 taxation years as these years are now statute-barred.

Bourget, Rosario 37,604

P.C. 1969-24/352, February 25, 1969, authorized the remission of income tax, interest, and penalty owing in respect of 1940 and 1941 taxation years. The returns were re-assessed in 1943, at which time Mr. Bourget was serving a prison sentence. Upon his release in 1954, the taxpayer disputed the re-assessments but was unable to provide his records for the years in question as they had been destroyed by the RCMP. The Department was unable to substantiate its re-assessment as the relevant departmental files could not be located and payment of income tax arrears would have to be made from assets acquired following his rehabilitation.

Bright, T G & Co Limited 98,339

P.C. 1969-16/531, March 18, 1969, authorized the remission of income tax and interest payable thereon in respect of the taxation years 1965, 1966, 1967 and 1968. In 1963, T G Bright & Co Limited borrowed \$2,500,000, and deducted the interest paid thereon from income pursuant to an opinion given by the Department of National Revenue, Taxation in 1952 and repeated 1962. However, a 1965 Tax Appeal Board decision in another case established that such interest is not deductible. A consequent re-assessment established a liability against the company but, under the circumstances, a remission was recommended.

Bydwell, Estate of Burton H. 1,083

P.C. 1968-17/1853, October 1, 1968, authorized the remission of estate tax and interest thereon payable by the estate. At the time the estate was assessed, certain property was included in computing the value of the estate. More than four years after this assessment, the Superior Court of Quebec ruled that such property was not property which the deceased was competent to dispose immediately prior to his death. Reassessment in respect of the property incorrectly included in the estate is now statute-barred.

Canada Tungsten Mining Corporation Limited 822,778

P.C. 1968-23/2154, November 26, 1968, authorized the remission of income taxes which will become payable for the 1968 and subsequent taxation years until the total amount equals \$822,778 plus interest otherwise payable thereon. Pursuant to the provisions of the Income Tax Act, the company was tax-exempt for the period June 1, 1965 to May 31, 1968. On December 26, 1966, a fire destroyed a

part of the plant and incapacitated the property from production until December 1, 1967. Based on the 1967 tax rates and the calculated taxable income that otherwise would have been assessed, the company is allowed to retain the advantage of a tax exemption equal to the tax exemption to which it would have been entitled had the fire not occurred during the tax-exempt period.

- Duchesneau, J G. 22,669
P.C. 1968-15/1853, October 1, 1968, authorized the remission of income tax and interest in the above amount and further interest thereon accrued since June 15, 1967, Mr. Duchesneau became liable for tax and interest arising from the recapture of capital cost allowance through the sale of a hotel property. The taxpayer has been unable to collect even half of the purchase price and has no prospects of collecting any more. In view of the taxpayer's age, physical and financial condition, a remission was recommended.
- Goldman, Ralph M. 6,558
P.C. 1969-19/13, January 14, 1969, authorized the remission of income tax and interest thereon in respect of the 1961 taxation year. In October 1964, a re-assessment gave effect to convert the taxpayer's method of reporting his income to a cash basis for the taxation years 1959 to 1962 inclusive. This re-assessment resulted in a 1962 business loss which normally could have been applied against his 1961 business income. Mr. Goldman was however also taxed on a 1962 real estate profit, so that an overall profit was produced for the 1962 year. The taxing of this profit was appealed by Mr. Goldman and the appeal was allowed, thereby re-establishing the 1962 business loss. By this time, the 1961 year was statute-barred.
- Hough, Leonard G. 8,183
P.C. 1968-12/1811, September 24, 1968, authorized the remission of income tax and interest thereon paid in respect of the 1961 taxation year. In 1958, the taxpayer disposed of certain property resulting in a profit which was considered taxable income. A reserve was allowed under section 85B of the Income Tax Act, and such profit assessed in the 1958, 1959, 1960 and 1961 taxation years. In March 1963, notices of objection were filed in respect of all assessments which were allowed by the Exchequer Court of Canada but the notice of objection for taxation year 1961 was not accepted as it was not submitted within the prescribed time limit and is now statute-barred.
- Kelen, Alex A Limited. 24,598
P.C. 1969-18/352, February 25, 1969, authorized the remission of interest only in respect of re-assessments for the taxation years 1951, 1952 and 1953. The taxpayer appealed the assessments but, because of the uncertain outcome and the complex nature of the case, the appeal was withdrawn by mutual agreement and partial payment made in February 1961. An additional payment of \$15,000 was received in September, 1968 from a major shareholder of the taxpayer corporation representing the proceeds of a personal loan on his life insurance. A further payment of \$19,653 representing the balance of tax, penalty and law costs, was received in March, 1969 from a corporation associated with the taxpayer. The business has deteriorated and there is very little likelihood of recovering any more.
- Leigh, Estate of Claude Moss. 2,459
P.C. 1969-21/113, January 21, 1969, authorized the remission of estate tax and interest thereon. Mr. Leigh, a resident of England and owning Canadian property, died January 19, 1964. An Estate Tax assessment dated September 9, 1964, was paid. On November 27, 1968, a Province of Quebec Succession Duty assessment for \$5,641 was issued and, normally, is deductible in computing the federal estate tax payable. As four years had elapsed since the issue of the Estate Tax assessment, a re-assessment to allow for a deduction in respect to the payment to the Province of Quebec was statute-barred.
- McElroy, Hector. 3,601
P.C. 1969-19/581, March 25, 1969, authorized the remission of income tax, interest thereon, and costs payable in respect of the 1960 taxation year. In 1960, Mr. McElroy sold some cattle and was assessed income tax on the resulting profit. It was established in 1968 that the proceeds from the sale were of a capital nature, not subject to income tax. An adjustment to the 1960 year is statute-barred.
- McMichael, Robert A and Signe K. 38,074
P.C. 1968-17/2278, December 17, 1968, authorized the remission of income tax plus interest in respect of the 1965 and 1966 taxation years. Mr. and Mrs. McMichael made a gift in 1965 to the Crown in right of Ontario, of land, premises and art valued at \$705,515. At this time, the Income Tax Act permitted a taxpayer to deduct such gifts to the extent of 10% of income. The Act has since been amended to permit a taxpayer to deduct the full amount of such gifts to the extent that no income tax would be payable in those years.
- Meikle, George M. 2,720
P.C. 1968-23/1853, October 1, 1968, authorized the remission of interest only in respect of income tax assessments for the years 1943, 1944 and 1945. Mr Meikle operated Royal Sales and a re-assessment disallowing travelling expenses resulted in a tax liability. The proprietorship was insolvent and legal steps to recover the debt were productive only to the extent of tax, penalty and legal costs and re-assessment does not permit reduction of the indebtedness at this time.
- Molson Breweries Limited. 631,765
P.C. 1968-22/971, May 22, 1968, authorized the remission of income tax and interest payable thereon in respect of the taxation years 1963 to 1966 inclusive. In 1963, Molson Breweries borrowed \$10,000,000 to redeem preferred shares and pay accumulated dividends pursuant to a 1962 Depart-

ment of National Revenue opinion that interest paid on such a loan was deductible from income. A 1965 Tax Appeal Board decision in another case established that such interest is not deductible. Consequently, the Company has been disallowed a deduction for interest paid resulting in an additional income tax levy but, under the circumstances, a remission was recommended.

Moore, Robert C.	3,811
P.C. 1968-21/1075, June 5, 1968, authorized the remission of income tax and interest payable. Mr. Moore was the principal in a company which went bankrupt in 1960. He was left without assets and an income tax debt in respect of the 1959 taxation year. Mr. Moore is now 70, in precarious health, and supporting his wife on a low income. He has made regular payments against the debt but his doctor advises the strain is adversely affecting his condition. A settlement of \$500 was accepted in full settlement and remission recommended on humanitarian grounds.	
Ryan, William J.	22,329
P.C. 1969-25/352, February 25, 1969, authorized the remittance of income tax, interest, and court costs in respect of 1955 and 1956 taxation years. In February 1958, a re-assessment covering income that the taxpayer considered to be capital gains was upheld by the Exchequer Court of Canada. Part payment has been received from a third party but, in view of the taxpayer's age, financial condition and improbable future earnings potential, a remission is recommended.	
Saulnier, Lucien.	8,424
P.C. 1968-15/2101, November 19, 1968, authorized the remission of income tax and interest paid in respect of the 1963 taxation year. It has now been ascertained that income tax and interest in the above amount were levied in error by a re-assessment issued in 1964. The taxpayer's 1963 taxation year is now statute-barred.	
Stradwick Industries Ltd.	37,492
P.C. 1968-18/1487, July 31, 1968, authorized the remission of income tax and interest paid in respect of the taxation years 1961 to 1964 inclusive. The above taxpayer paid income tax on the basis that it was associated with Stradwick's Limited which, by a subsequent re-assessment upheld by the Courts, was associated with Floor & Wall Covering Distributors Ltd and Vina-Rug (Canada) Limited. As a result of this re-assessment, Stradwick Industries Limited was deemed also to be associated with Floor & Wall Covering Distributors Ltd and Vina-Rug (Canada) Ltd. As it is doubtful that such a result was ever intended in applying the provisions of the Income Tax Act in respect of associated companies, a remission was recommended.	
Wickes, Estate of Frances Gillespy.	4,585
P.C. 1968-21/1569, August 14, 1968, authorized the remission of estate tax and interest. The deceased was domiciled in the State of New York at the time of her death and held shares in a Canadian corporation which would normally attract estate tax. The shares, however, were registered in the name of a nominee and transferred, the transfer agent being unaware that the shares were the property of a deceased person. In these circumstances, collection of the total estate tax payable is virtually impossible. A settlement was received from the estate on the condition that the balance be remitted.	
Total.	\$ 1,954,265

Other remissions were granted as follows:

P.C. 1968-832, April 30, 1968, authorized the remission of the amount of any tax or penalty payable by any person under Part III of the Income Tax Act on interest on first mortgage bonds issued by Churchill Falls (Labrador) Corporation Limited.

P.C. 1968-8/1189, June 28, 1968, authorized the remission of income tax applicable to 1967 and 1968 taxation years payable by Professor Ivan Head on \$120 per month living allowance paid to him under the terms of an agreement with the Minister of Justice in connection with a special study of the Canadian Constitution.

P.C. 1968-1/2330, December 20, 1968, authorized the remission of interest slightly in excess of \$7,000,000 in respect of income tax for the years 1962, 1963 and 1964. Esquimalt and Nanaimo Railway Company, a wholly owned subsidiary of the Canadian Pacific Railway, and Pacific Logging Company, a subsidiary of Canadian Pacific Investments Limited, traded in timber land acquired by a grant. Investigation and subsequent assessments held that the sales were subject to tax. Arising out of appeals, an agreement was reached that E & N Railway would not be taxed on sales to Pacific Logging but sales to outside parties would be included in income. The sales in question have, in the past, been regarded by the companies and the department as capital transactions and the outcome of a lengthy and costly adjudication is doubtful.

P.C. 1969-16/151, January 28, 1969, authorized the remission of income tax, interest and penalties to certain members of the Hutterian Brethren Church for taxation years 1961 to 1967. A study concluded that where the land and other assets, also profits arising from farming or other activities, are registered or held in the name of an incorporated company as nominees for the common use of each and all of the members, such colony or corporation is not taxable under the Income Tax Act but each member of a colony must include in his income his share of the profit attributable to the farming or business activities carried on by the colony of which he is a member. In the past, the majority of the members of the Hutterian Brethren Colonies did not apply for and did not receive payments under the Family Allowance Act and the Old Age Pension Act to which they would have been entitled if they had applied. The portion of income tax and interest that would otherwise be payable by the members based on the foregone amounts of family allowances and old age pension is therefore remitted, also penalties for late filing income tax returns for the years 1961 to 1966.

 CHARTERED ACCOUNTANTS
 ROYAL BANK BUILDING
 PLACE VILLE MARIE
 MONTREAL 113, CANADA

February 26, 1969.

TO THE HONOURABLE, THE MINISTER OF TRANSPORT,
 OTTAWA, CANADA.

Sir:

As auditors of Air Canada we report through you to Parliament on our audit of the accounts of the Corporation for the year ended December 31, 1968.

We have reported in the following terms on the financial statements included in the annual report of the Corporation:

"We have examined the balance sheet of Air Canada as at December 31, 1968, and the statements of income and retained earnings and source and application of funds for the year ended on that date. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, and according to the best of our information and the explanations given to us and as shown by the books of the Corporation, these financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the Corporation at December 31, 1968, and the results of its operations and the source and application of its funds for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Corporation and the transactions that have come under our notice have been within the powers of the Corporation."

For your information we offer the following explanatory comments on significant items included in the financial statements. Amounts are expressed to the nearest thousand dollars.

MATERIALS AND SUPPLIES

The Corporation provides for obsolescence of expendable and repairable aircraft spare parts by charges to operating expenses over the service life of the applicable aircraft. These charges are based on the value of the spare parts, less the estimated residual value at the date of retirement of the aircraft.

REFUNDABLE FEDERAL CORPORATION TAX

The amount of \$1,663,000 at December 31, 1968 represents the balance still refundable, plus accrued interest, arising from the special refundable tax imposed by a 1966 amendment to the Income Tax Act. Substantially all of this amount will be recoverable in 1969.

PROPERTY AND EQUIPMENT

The net investment in Flight Equipment and Ground Equipment increased by \$103,186,000 accounted for as follows:

Additions

Flight equipment and spare parts—principally 19 DC-9's and 6 DC-8's.....	\$142,326,000
Ground equipment and facilities.....	15,987,000

158,313,000

Retirements.....	23,728,000
------------------	------------

134,585,000

Less: Net increase in accumulated depreciation.....	31,399,000
---	------------

Net increase.....	\$103,186,000
-------------------	---------------

Retirements of \$23,728,000 during the year resulted from:

Cost of 6 DC-9-14 aircraft sold.....	\$ 22,270,000
Other retirements.....	1,458,000

\$ 23,728,000

AIR CANADA—Continued

The Corporation's aircraft depreciation policy, which conforms to the industry practice, is to reduce the net investment to residual value over the estimated service life. Residual values and estimated service lives are reviewed annually in accordance with this policy. As a result of the 1968 review the Corporation revised its estimate of the useful life of Vanguard aircraft, and the residual values of Viscount aircraft.

At December 31, 1968, 5 Vanguard aircraft and 6 Viscount aircraft that were depreciated to residual values had been taken out of service. This reduced the Corporation's in-service fleet to 18 Vanguards, 33 Viscounts, 27 DC-8's and 31 DC-9's at December 31, 1968 for a total active fleet of 109 aircraft as compared to 101 at December 31, 1967.

At December 31, 1968 progress payments had been made against orders or delivery queue positions for purchase of property and equipment to be delivered in future years as follows:

13 DC-8 aircraft and spare engines.....	\$ 26,353,000
5 DC-9 aircraft and spare engines.....	6,703,000
3 Boeing 747 aircraft and spare engines.....	3,578,000
4 Concorde supersonic transports.....	1,047,000
6 Boeing supersonic transports.....	1,420,000
Ground equipment and facilities.....	6,898,000
	<u>\$ 45,999,000</u>

LONG TERM PREPAYMENTS

Under its agreement with BOAC to sublease space for 25 years in a new terminal building presently under construction at Kennedy International Airport, New York, the Corporation is required to advance, pro rata, rental payments based on construction progress. At December 31, 1968 the amounts advanced totalled \$5,498,000. When the terminal is completed in 1970 it is expected that the amounts advanced, excluding special equipment, will total about \$10,900,000 which will be amortized as rent over the period of the lease commencing on the date of occupancy.

NOTES AND DEBENTURES

Notes payable increased \$92,680,000 as a result of additional borrowings of \$90,000,000 secured by notes maturing in 1980 and the conversion of \$2,680,000 of debentures into notes maturing in 1973.

Notes and debentures outstanding at December 31, 1968 are payable as follows:

SCOPE OF THE AUDIT

The external audit of a corporation as large and geographically widespread as Air Canada places heavy emphasis on the extent and efficiency of accounting and administrative controls and on the scope and effectiveness of the work performed by the Corporation's internal audit department.

In keeping with this philosophy our annual audit of Air Canada is comprised of five major phases, as follows:

- (1) Discussions with management on the Corporation's financial policies, procedures, systems and controls. These discussions take place frequently throughout the year and particularly when the Corporation is contemplating changes in accounting policies and procedures or following our audit examination when we have suggestions or recommendations to make to management.
- (2) A comprehensive review of the scope and results of internal audit work performed. We work very closely with the internal audit department which reports directly to the Senior Vice-President—Finance.
- (3) Review of the accounting systems to consider the adequacy of the controls and to determine whether the procedures are appropriate and in line with current practice. We document all major systems by flow charts as part of this examination.
- (4) Procedural tests of accounting and other controls on a selective basis in order to verify that the system is functioning as it should. We carry out these tests on a cyclical schedule so that all significant areas of the Corporation's financial system are subject to external audit examination.
- (5) A thorough review and examination of the balances reported in the financial statements at the year end.

We are pleased to record our appreciation of the excellent co-operation and assistance that we received from the Corporation's officers and staff.

Yours very truly,
TOUCHE, ROSS, BAILEY & SMART.

Notes to Financial Statements

1. International Service

The Governor in Council by Order in Council P.C. 1968-525 of March 19, 1968 directed the Corporation to provide an International Service by means of shortwave broadcasting providing thereby a continuing expression abroad of Canadian identity, and to consolidate the accounts relating to the International Service with the accounts of the Corporation and merge the capital assets of the International Service with the assets of the Corporation. This consolidation has taken place effective April 1, 1968 and corresponding adjustments have been made to the Corporation's statements for the previous year to enable proper comparisons to be made. In previous years the International Service was financed by a separate parliamentary vote while in the current year it was financed from the parliamentary appropriation provided for the Corporation.

2. Capital Assets

Capital assets in the amount of \$166,134,942 include the sum of \$20,566,000 expended during the last ten years in connection with the planned consolidation of facilities in Halifax, Moncton, Fredericton, Montreal, Ottawa, Toronto, Winnipeg and Vancouver. The present estimate of the future cost of consolidation of facilities for the Corporation is \$163,329,000 of which, subject to the provision of funds by Parliament for the purpose, approximately \$13,700,000 will be expended during the year ending March 31, 1970, and \$149,629,000 during subsequent years.

3. Production and Distribution of Programs

Costs relative to programs available for advertising and advertising revenue earned thereon, are as follows:

	1968-69	1967-68
Programs which carried advertising.....	\$46,939,000	\$43,088,000
Programs available but which did not carry advertising.....	31,177,000	32,953,000
Programs and related costs (exclusive of operational supervision, selling and general administration).....	\$78,116,000	\$76,041,000
Advertising revenue—gross.....	\$39,765,000	\$38,734,000

4. Remuneration of Directors

Total remuneration of directors, as directors, officers or employees of the Corporation for the year was \$70,600.

5. CBC Pension Plan

A report dated October 1967, on the actuarial review of the CBC Pension Fund as at December 31, 1966 confirmed that the assets held in the Fund were adequate to meet all accrued liabilities for service rendered to that date. The actuarial review indicated an unfunded liability in respect of service to be rendered after that date of \$12,917,000. Regulations made pursuant to the Pension Benefits Standards Act, 1966-67, c.92, require this unfunded liability to be liquidated over a period not to exceed sixty years. The actuaries reported that the present rates of contributions were sufficient to meet the total current service cost including the liquidation of this unfunded liability. While the Pension Benefits Standards Act requires that an actuarial review of the fund be made only within three years of the date of registration and within every three years thereafter, a survey was made during the current year of the actual experience related to some of the actuarial assumptions used in the October 1967 report. This preliminary testing indicated an increase in the unfunded liability to \$16,000,000 due to actual wage increases being higher than the assumption used in the actuarial review as at December 31, 1966. In view of the requirements of the Pension Benefits Standards Act that an increase in the unfunded liability established by an actuarial review be liquidated within five years, the Corporation is taking the necessary steps to have an actuarial review made and to commence the liquidation in 1970-71 of any increase in the unfunded liability.

 - (i) except for the consolidation of the accounts of the International Service with those of the Corporation, were prepared on a basis consistent with that of the preceding year and are in agreement with the books of account,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Corporation's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of operations, give a true and fair view of the operations of the Corporation for the financial year; and

1. US dollars included in the above amounts were translated into Canadian dollars at the rate of exchange prevailing on March 31.
2. An action for recovery of \$2 million from the Department of Supply and Services for infringement of patents is currently in litigation. The amount includes approximately \$1.6 million in respect of purchases made by the Corporation on behalf of its customers. Legal officers of the Crown are of the opinion that the action can be successfully defended.
3. A large contract negotiated on a ceiling price basis with a foreign government carries with it certain risks which will likely result in a loss to the Corporation.
4. At March 31, 1969 the amount receivable from customers in respect of work in progress on contracts entered into on their behalf has been included in the Accounts receivable. In prior years this amount was reflected in the difference between the Progress payments to suppliers and Progress payments from customers. The 1968 figures have been adjusted accordingly.

Notes to Financial Statements as at December 31, 1968

1. Notes Payable

The Corporation was unable to meet the payment of notes issued as security for loans totalling \$103,333,333 that matured on June 30, 1968 and a further \$80,566,667 of notes that were called in advance of their due date by the Minister of Finance with the concurrence of the Minister of Finance of the Province of Quebec. Accordingly the total amount of \$183,900,000 was assumed equally by Canada and Quebec as joint guarantors of the notes and no provision for interest thereon has been made in the accounts since that date.

On May 15, 1969 the Minister of Finance with the concurrence of the Minister of Finance of the Province of Quebec called in advance of their due date of June 30, 1970 notes totalling \$56,100,000. Of this amount, Canada assumed responsibility for \$45,321,429 and Quebec for \$10,778,571. On May 28, 1969 the Corporation delivered notes of the City of Montreal payable to Canada totalling \$14,371,429 and the same payable to the Province of Quebec totalling \$10,778,571 which the City had presented to the Corporation on April 21, 1969 in settlement of

CANADIAN CORPORATION FOR THE 1967 WORLD EXHIBITION—Concluded

its share of the Net Cost of the Exhibition estimated at \$30,700,000 less an estimated \$5,550,000 due by the Corporation to the City for services rendered. As a result of these transactions the Corporation will reflect in its 1969 accounts a liability to Canada of \$122,900,000 and to Quebec of \$91,950,000 which will be offset by their respective shares of the Net Cost of the Exhibition.

2. Contingent Liabilities

Contingent liabilities in respect of seven miscellaneous claims totalling \$148,235 are subject to litigation. In the opinion of legal counsel of the Corporation, these claims cannot be sustained.

3. Other Receivables

The estimated amount of \$853,374 shown as insurance premiums recoverable as at December 31, 1968 is based on losses paid and reserves for outstanding claims as estimated by the applicable insurance companies. The exact amount of the refund will not be established until all outstanding claims have been settled.

4. Distribution of Net Cost of the Exhibition

Pursuant to the provisions of an agreement dated January 18, 1963 between the Government of Canada, the Government of the Province of Quebec and the City of Montreal, the net cost of the Exhibition to December 31, 1968 has been charged to the participating governments on the following basis:

Government of Canada.....	50%
Government of the Province of Quebec.....	37½%
City of Montreal.....	12½%

5. Revised Overall Plan

The seventh revised overall plan dated May 15, 1968 was approved by the Governor in Council and Lieutenant Governor in Council as required by Section 10 of the Canadian Corporation for the 1967 World Exhibition Act on the basis of an estimated net cost of \$287,463,525. The actual costs incurred to December 31, 1968 are \$284,791,460. An additional amount of \$964,370 has been estimated to cover final wind-up costs of the Corporation.

CANADIAN DAIRY COMMISSION—*Concluded*

AUDITOR GENERAL OF CANADA

Ottawa, June 30, 1969.

THE HONOURABLE H. A. OLSON,
MINISTER OF AGRICULTURE
OTTAWA.

Sir,

I have examined the accounts and financial statements of the Canadian Dairy Commission for the year ended March 31, 1969.

Section 85 of the Financial Administration Act requires a Crown corporation to "prepare in respect of each financial year statements of accounts which shall include a balance sheet, a statement of income and expense and a statement of surplus, containing such information as, in the case of a company incorporated under the Canada Corporations Act, is required to be laid before the company by the directors at an annual meeting". To conform with this requirement the financial statements for the year ended March 31, 1969 have been prepared on the accrual basis whereas the certified financial statements for the preceding year were drawn up on a cash basis. As a result the Statement of Operations for the year ended March 31, 1969 contains certain transactions relating to the preceding year, which are shown separately in the statement. As a consequence of this difference in presentation, the financial statements are not presented on a comparative basis.

In his announcement of the support price for manufacturing milk, made by the Minister of Agriculture to the House of Commons on March 31, 1969, the Minister stated:

The cost of disposing of surpluses must be financed by the Canadian Dairy Commission out of the funds provided to it for subsidies. This is in accord with the policy, previously enunciated by the government and which is well understood by producers, and their representatives, that the cost of such disposal must be a charge against the industry. For this purpose, the Commission makes a holdback against subsidy payments . . .

However, during the year ended March 31, 1969, payments to finance exports of surplus products exceeded the total of holdbacks carried forward from the preceding year and those made during the year by \$11,458,335. Furthermore, subsequent export sales of the year-end inventory of dry skim milk have resulted in a loss of \$24,033,000 for which provision has been made in the financial statements. Consequently, the cost of disposing of surplus manufacturing milk products purchased by the Commission to March 31, 1969 and assistance to exporters to that date exceeded by \$35,551,335, the amount of the holdbacks from subsidy payments. This excess has been charged as an operating cost of the Commission.

In compliance with the requirements of section 87 of the Financial Administration Act, I report that, in my opinion, subject to the foregoing observations:

- (a) proper books of account have been kept by the Commission;
- (b) the financial statements of the Commission
 - (i) are in agreement with the books of account,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Commission's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of operations, give a true and fair view of the operations of the Commission for the financial year; and
- (c) the transactions of the Commission that have come under my notice have been within the powers of the Commission under the Financial Administration Act and any other Act applicable to the Commission.

Yours faithfully,

Notes to Consolidated Financial Statements at December 31, 1968

Note 1: Property Investment

Additions since January 1, 1923 have been recorded at cost and properties and equipment brought into the System at January 1, 1923 are included at the values appearing in the books of the several railways now comprised in the System to the extent that these have not been retired or replaced. Depreciation on Canadian Lines: Depreciation accounting as adopted for equipment in 1940, for hotel properties in 1954 and for track and road structures and all other physical properties except land in 1956 has been continued in 1968. The depreciation rates used are based on the estimated service life of the properties but do not provide for depreciation which was not recorded in prior years under the replacement and retirement accounting principles then in force, or for extraordinary obsolescence resulting from the introduction of more efficient equipment. Depreciation on U.S. Lines: Replacement accounting for track and depreciation accounting for equipment and other property except land have been continued in accordance with the regulations of the Interstate Commerce Commission.

Note 2: Material and Supplies

The inventory has been priced at laid down cost based on weighted average cost for ties, rails and fuel and latest invoice price for new materials in general stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

Note 3: Capital Stock

The capital stock of the Canadian National Railway Company (other than the four percent preferred stock) and the capital investment of Her Majesty in the Canadian Government Railways are included in the net debt of Canada and disclosed in the historical record of government assistance to railways as shown in the Public Accounts of Canada.

Note 4: Pension Funds

As at October 1, 1967 the unfunded liability under the Company's Pension Plans was actuarially estimated to be \$675,000,000. The Company is liquidating this unfunded liability over a period of sixty years from October 1, 1967 by making annual payments of both principal and interest to the Pension Trust Fund as required by the Pension Benefits Standards Act. These payments have been charged to System expenses and the amount of the unfunded liability has been reduced to \$671,423,250 at December 31, 1968.

Note 5: Major Commitments

In addition, the proprietors are obligated to make semi-annual sinking fund payments sufficient to retire the bonds at maturity and to meet interest as it falls due; in the absence of default of any of the other proprietors, Grand Trunk Western's proportion of such semi-annual payments is one-fifth.

(b) The Belt Railway Company of Chicago:

CHARTERED ACCOUNTANTS

Royal Bank Building, Place Ville Marie
Montreal, 113, Canada

March 19, 1969.

To THE HONOURABLE, THE MINISTER OF TRANSPORT,
OTTAWA, CANADA

Sir:

As auditors of the Canadian National Railway System we submit, through you, this report to Parliament on our examination of the financial statements of the Company for the year ended December 31, 1968.

The Company's annual report contains comprehensive statistical and financial information and therefore we confine our comments to points of particular audit significance and to highlights of the financial year.

AUDIT REPORT

Our formal report on the financial statements is included in the annual report published by the Company and reads as follows:

"We have examined the consolidated balance sheet of the Canadian National Railway System as at December 31, 1968 and the consolidated statements of income and source and application of funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, subject to depreciation not recorded in earlier years as referred to in Note 1, these consolidated financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the System as at December 31, 1968 and the results of its operations and the source and application of its funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the System."

SCOPE OF AUDIT

Our audit plan is based on a large number of factors and will vary for each annual examination depending on the circumstances.

The most fundamental factor which we consider in determining the scope of our audit is the nature and efficiency of the financial and managerial controls. While these controls are important in all companies, they are particularly important in a company of the size and complexity of the CN. In the case of the CN the controls include comprehensive personnel and operating controls, an extensive budgetary and reporting system, a sophisticated data processing system, broad internal audit programmes and an accounting development department and other study groups concerned with improving operational and managerial efficiency.

As well as reviewing these financial and managerial controls, our audit plan includes the use of procedural tests of controls and an examination at interim and year end dates of the financial statements of the various companies, regions and departments comprising the CN System. All of this work is supplemented by in-depth audit studies in chosen areas.

To illustrate the implementation of this audit approach the following are examples of general audit procedures carried out in 1968.

1. We reviewed the work programmes and activities of the various control groups. This review and discussions with management enabled us to keep up to date with changes in major control and accounting procedures and to evaluate controls in existence.
2. We carried out procedural tests of the payroll accounting and control system. Some of this work involved testing the data processing controls by using computer programmes which we developed.
3. The financial statements of each of the regions and departments were examined at some time during the year or at the year end date. In accordance with a long range plan certain of these balance sheets were examined in depth and the others were reviewed in less detail. In all cases satisfactory explanations were obtained for any major fluctuations between interim figures and corresponding year end balances.
4. Included in the in-depth audit studies which we carried out during 1968 was a detailed review of two preliminary studies prepared by the Company on CN depreciation rates and methods. We commented to management on the results of our review. The Company will complete these studies in 1969.

CANADIAN NATIONAL RAILWAYS—Continued

INTERNAL AUDIT

We place considerable importance on the internal audit function in determining the nature and scope of our work. The work of this department continues, in our opinion, to be of a high quality but as reported to you last year, the department once again in 1968 experienced difficulty in maintaining sufficient qualified staff. As our audit coverage is co-ordinated with the work of this department, this staffing problem was taken into consideration by us in determining our audit scope.

FINANCIAL POSITION

The financial position of the System at December 31, 1968 is comparable with that at December 31, 1967 as shown in the following summary. It is noteworthy that for the first time the total assets of the System had reached four billion dollars at the year end date.

CANADIAN NATIONAL RAILWAYS—Continued

While during the year there has been a reduction of \$2.6 million in net equipment and joint facility rents, in 1968 the System spent \$23.1 million for rentals of freight equipment. These annual rental payments have gradually increased over the past few years as leasing becomes a more common method of economically financing equipment needs.

MILLIONS OF DOLLARS

CANADIAN NATIONAL RAILWAYS—Concluded

The total System depreciation charge increased in 1968 by \$3.2 million to \$114.4 million as a result of the additional investment in depreciable property. The rates of depreciation and the basis of calculation are consistent with the previous year. From time to time the Company conducts an overall review of its depreciation rates in the light of current operating conditions and retirement experience; as indicated in the scope section of this report, such a review is now underway and will be completed during 1969.

INVESTMENT IN AFFILIATED COMPANIES

An additional advance of \$75.0 million was made to Air Canada during the year bringing the total advances to this Company and investment in its capital stock to \$382.8 million. In a report dated February 26, 1969 we reported to you on our examination of the financial statements of Air Canada.

The Company's investment in jointly operated rail and terminal facilities remained almost unchanged during the year. As this investment does not provide voting control of the companies they have not been consolidated in the System statements.

LONG TERM DEBT

The System has not borrowed from the public since 1960, and all borrowings from that date have been from the Government of Canada for the purpose of providing funds for the repayment of matured debt or for advances to Air Canada.

In accordance with the legislation governing the repayment of the System long term debt, \$140.7 million was advanced by the Government of Canada during 1968 to repay bonds maturing during the year, to finance prior redemptions through open market purchases, and to cover the advances made to Air Canada.

SHAREHOLDERS' EQUITY

The provisions of the Canadian National Capital Revision Act, 1952, relating to the issue of four per cent preferred shares and the interest-free \$100.0 million debenture issue were extended by the Canadian National Railways Financing and Guarantee Act, 1967. During the year, \$30.4 million of preferred shares at par value were issued to the Minister of Finance in accordance with these Acts.

The capital investment of the Government in the Canadian Government Railways, which forms part of the shareholders' equity, was virtually unchanged during the year.

OPERATING RESULTS

The System's deficit in 1968 was \$29.2 million, an improvement of \$6.7 million over the 1967 results. The preceding chart shows the trend of improvement in the deficit since 1960.

The lump sum subsidy under the National Transportation Act, 1967 decreased by \$8.0 million from the 1967 amount to \$55.1 million in 1968. Subsidies were also received under the Maritime Freight Rates Act (\$11.9 million) and for the losses on the operation of the Newfoundland and P.E.I. Steamship Services (\$29.4 million).

Freight revenue increased during the year by 4.5%, but passenger revenue declined by 15.8% from the 1967 record level.

Total operating expenses remained at the 1967 level as the Company was able to offset cost increases by a lower number of employees and more efficient use of equipment.

Interest on funded debt increased by \$5.3 million over 1967 to \$70.4 in 1968. The effective rate of interest on debt outstanding at December 31, 1968 was 5.18% compared with 4.73% in the previous year.

PENSION FUND

The unfunded liability in respect of past services of employees, as established by actuarial appraisal in 1967, was \$675.0 million. This unfunded liability is disclosed in a note to the Company's financial statements.

The Pension Benefit Standards Act which came into effect on October 1, 1967 requires the unfunded liability at that date to be liquidated in equal annual amounts over a period not exceeding 60 years. Pension costs include \$2.9 million as the amortization charge for the year ended December 31, 1968.

We take this opportunity to express our appreciation to the management and staff of the Company for their co-operation in the conduct of the audit. The assistance received and the courtesy extended to us greatly facilitated our work.

Respectfully submitted,

Notes to Financial Statements

1. As at March 31, 1969, the estimated cost of completing capital projects, as approved by Order in Council P.C. 1969-888 dated May 1, 1969, amounted to approximately \$19,172,000 of which \$14,256,700 relates to the year ending March 31, 1970.
2. The Corporation records depreciation in its accounts based on the expected useful life of its capital assets but, in calculating its liability for income tax, claims the maximum capital cost allowance permitted under the Income Tax Act. The effect of this procedure is to defer payment of income taxes until future years when depreciation charges will exceed capital cost allowances.
3. The advances from the Government of Canada are repayable in semi-annual instalments over varying periods in accordance with the terms and conditions laid down by the Governor in Council. The repayments during the year ended March 31, 1969 totalled \$3,040,103 and instalments falling due for repayment during the year ending March 31, 1970 aggregate \$3,423,803.
4. Included in the expenses for 1968-69 are: remuneration of executive officers, \$116,705; and directors' fees, \$1,800.

AUDITORS' REPORT

To THE CANADIAN WHEAT BOARD:

We have examined the balance sheet of The Canadian Wheat Board as at July 31, 1968 and the statements of operations and administrative and general expenses for the crop year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Board as at July 31, 1968 and the results of its operations for the crop year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding crop year.

Our examination also included the accompanying Statement of Advance Payments to Producers under the Prairie Grain Advance Payments Act as at July 31, 1968 for the crop years 1957-58 to 1967-68 inclusive. In our opinion this statement presents fairly the results of transactions in this account as at July 31, 1968.

CAPE BRETON DEVELOPMENT CORPORATION—Continued

Notes to Financial Statements—Coal Division December 31, 1968

1. The Cape Breton Development Corporation was established on October 1, 1967 to promote and assist the financing and development of industry on the Island of Cape Breton to provide employment outside the coal producing industry and broaden the base of the economy of the Island, and to acquire the interests of the major coal producer in the Sydney coalfield and reorganize and operate the mines with a view to the rationalization of coal production therefrom and the progressive withdrawal of the Corporation from such production, in accordance with a plan that takes into account progress in providing employment outside the coal producing industry and in broadening the base of the Island's economy.

For the purpose of enabling the Corporation to carry out its objects it acquired on March 30, 1968, under the authority of Section 9 of The Cape Breton Development Corporation Act, lands and personal property located on the Island and interests in land and personal property located under waters adjacent thereto, that constituted or formed part of the works and undertakings operated or carried on by Dominion Coal Company, Limited, Nova Scotia Steel and Coal Company, Limited, The Dominion Rolling Stock Company Limited, Sydney and Louisburg Railway Company, The Scotia Rolling Stock Company, Limited and The Cumberland Railway Company (The Companies).

The cost, if any, of the above acquisition has not yet been determined and is to be paid by The Minister of Finance out of the Consolidated Revenue Fund.

Included in the accounts receivable at December 31, 1968 are amounts totalling \$1,960,798 from The Companies, consisting mostly of amounts paid or payable for vacations earned before the expropriation date.

2. The operating statement includes the operations of the coal mines and the Devco Railway for the period from the date of acquisition, March 30, 1968 to December 31, 1968 and the operations of the coke ovens from May 1, 1968 to December 31, 1968.

3. Included in the acquisition were operating materials and supplies shown on the books of The Companies at March 30, 1968, at their respective costs of \$3,379,392. The Coal Division purchased \$915,687 of these operating materials and supplies at cost and this amount has been included in the current liabilities. The balance of the operating materials and supplies were expropriated, and as the cost of their acquisition is not yet known, no value has been included in the accounts for them.

During the nine months of operation all stores issues of expropriated materials and supplies have been charged to mining losses and credited to inventory at The Companies' respective costs. The amount shown as inventory represents total costs of purchases, including the \$915,687 referred to above, less credits for materials issued.

4. As the cost of the acquisition of fixed assets expropriated from The Companies has not been determined, no value has been included in the accounts for them.

The Treasury Board of Canada has indicated that depreciation should not be provided in determining mining losses under the Act. The Coal Division has included in its operating costs depreciation on all fixed assets in use. For expropriation assets the charge was based on the costs shown in the books of The Companies as final values have not yet been determined. All depreciation charges have been reversed and deducted from operating losses to determine mining losses exclusive of depreciation.

5. This balance represents the net proceeds of sale of the coal stocks expropriated from The Companies on March 30, 1968. When the final acquisition costs are determined this amount will be credited against them.

6. At December 31, 1968, the Coal Division had the following commitments:

- (A) To purchase fixed assets at a cost of approximately \$2,000,000.
- (B) To purchase U.S. coal for blending at the coke ovens at a cost of approximately \$5,000,000 between January 1, 1969 and March 31, 1970.
- (C) To complete four years of a charter for shipping coal at a cost not to exceed \$1,500,000 per year.

7. The unfunded actuarial liability of the Cape Breton Development Corporation Non-Contributory Pension Plan was \$10,625,990 at March 31, 1968. No provision for this liability has been included in the accounts at December 31, 1968. The recommended minimum annual payment into the fund is \$888,006. During the current year pension costs exceeded this amount. It is anticipated that, when current annual pension costs are less than the recommended annual payment necessary to fund this liability, a fund will be created.

8. During the year, the Corporation took over the operations of the coke ovens owned by Sydney Steel Corporation. A capital payment of \$4,280,921 was made for the fixed assets and formal agreement covering the transfer of the assets and the selling price of coke and by-products to Sydney Steel Corporation is currently being negotiated.

9. Total remuneration of directors as directors or officers of the Corporation (Coal Division and Industrial Development Division) for the year was \$90,297.

10. Since the inception of the Corporation statutory grants from Canada under Section 19 of The Cape Breton Development Corporation Act have totalled \$9,461,021, of which \$9,030,921 was for capital assets and \$430,100 was for operating purposes.

THE HONOURABLE GÉRARD PELLETIER
SECRETARY OF STATE

PARLIAMENT BUILDINGS
OTTAWA, CANADA

We have examined the balance sheet of the Company of Young Canadians as at March 31, 1969 and the statement of income and expenses for the year then ended. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion and according to the best of our information and the explanations given to us and as shown by the books of the Company, these financial statements are properly drawn up on a basis consistent with that of the preceding year so as to give a true and fair view of the state of affairs of the Company at March 31, 1969 and the results of its operations for the year then ended.

We reported to you last year on the fact that the Company's staff, with our assistance, had worked to introduce controls to overcome various weaknesses in the accounting system. During the year under review, this work continued and while all of the problems had not been fully resolved by the year end date, sufficient work had been done that, in our opinion, proper books of account were in existence at that date and continuing efforts are being made to effectively implement the necessary controls. Also, in our opinion, the transactions of the Company which have come to our notice, have been within the powers of the Company.

Notes to Financial Statements

1. Deferred Accounts Receivable

The balance in this account at December 31, 1968, is receivable under contracts which provide for payment to be made following shipment of products as required from time to time before 1975. During the year the deferred account with the United Kingdom Atomic Energy Authority which amounted to \$25,718,945 at December 31, 1967 was eliminated through arrangements for early liquidation as provided for in the original contract with the Authority.

2. Subsidiary Companies

The assets, liabilities, income and expense of the Company's two wholly-owned subsidiaries, Eldorado Aviation Limited and Northern Transportation Company Limited have not been included in the financial statements of Eldorado Nuclear Limited.

The net expenses of Eldorado Aviation Limited are recovered from Eldorado Nuclear Limited and Northern Transportation Company Limited. The aggregate undistributed profits of Northern Transportation Company Limited as at December 31, 1968 amounted to \$7,104,995.

All three companies are Crown corporations as defined by section 76(c) of the Financial Administration Act, and as such each is required to report annually to the appropriate Minister in compliance with the provisions of that Act.

3. Excess of Costs and Expenses over Sales of Concentrates procured from other Producers

At December 31, 1967 the excess of sales over costs and expenses of concentrates procured from other producers amounted to \$1,118,630. During the year a discount of \$3,185,974 was incurred in the early liquidation referred to in Note 1. A partial amortization of the above items resulted in a balance of \$1,835,938 at December 31, 1968. This balance will be amortized over the remaining deliveries of concentrates to be made to the United Kingdom Atomic Energy Authority.

4. Depreciation

Provision for depreciation during the year amounted to \$845,927.

5. Government of Canada Stockpile Program

The Treasury Board, with the approval of the Governor in Council, has granted authority for Eldorado Nuclear Limited to purchase and stockpile uranium bearing concentrates for the Government of Canada. At December 31, 1968 the Company was the custodian of concentrates thus acquired at a cost of \$82,413,897. The cost of these concentrates, being chargeable to parliamentary appropriations, is therefore not included in the accounts of the Company.

6. Remuneration of Directors

Total remuneration of directors as directors, officers or employees of the Company for the year was \$36,000.

FARM CREDIT CORPORATION—*Concluded*

AUDITOR GENERAL OF CANADA

Ottawa, June 9, 1969.

THE HONOURABLE H. A. OLSON,
MINISTER OF AGRICULTURE,
OTTAWA.

Sir,

I have examined the accounts and financial statements of the Farm Credit Corporation for the year ended March 31, 1969.

Section 15 of the Farm Credit Act requires the Corporation to establish a Reserve out of which may be paid "any losses sustained by the Corporation in the conduct of its business". The section further provides that the Corporation shall credit its net earnings each year to this Reserve until the amount of the Reserve equals the capital of the Corporation. At March 31, 1969 the capital of the Corporation amounted to \$40,300,000 while the Reserve amounted to \$1,217,780 having been reduced during the year by \$266,251, the balance of the net operating loss not provided for by parliamentary appropriation and by \$45,020 due to losses on loans written off.

It has been pointed out previously that the statutory lending rate of 5% on loans to farmers has not provided sufficient income to cover the interest paid on borrowings from the Government of Canada and administrative expenses. By an amendment to the Farm Credit Act the statutory rate was abolished with effect from November 15, 1968 and the interest rate on loans is now fixed from time to time by the Governor in Council. With effect from November 15, 1968 the rate was fixed at 7½%. However, annual losses will continue to be incurred with respect to outstanding loans totalling \$866 million at March 31, 1969 which bear interest at the statutory rate of 5%. Since 1963 the annual losses of the Corporation resulting from the low statutory interest rate have been recovered from annual parliamentary appropriations provided for the purpose in order to prevent further depletion of the Reserve for losses. However, the parliamentary appropriation of \$6,000,000 for the year ended March 31, 1969 was not sufficient to cover the operating loss for the year, and \$266,251 had to be charged to the Reserve.

The provision of a parliamentary appropriation to cover the full annual operating loss of the Corporation would prevent further depletion of the Reserve by such losses, but this policy does not provide for the building up of the Reserve to an amount equivalent to the capital of the Corporation as is contemplated by the Farm Credit Act.

In compliance with the requirements of section 87 of the Financial Administration Act I now report that, in my opinion, subject to the foregoing:

- (a) proper books of account have been kept by the Corporation;
- (b) the financial statements of the Corporation
 - (i) were prepared on a basis consistent with that of the preceding year and are in agreement with the books of account,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Corporation's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of income and expense, give a true and fair view of the income and expense of the Corporation for the financial year; and
- (c) the transactions of the Corporation that have come under my notice have been within the powers of the Corporation under the Financial Administration Act and any other Act applicable to the Corporation.

Yours faithfully,

A. M. HENDERSON

Notes to Financial Statements

1. Long-term Agreements of Sale

The amount of \$10,007,391 comprises \$8,888,677 owing in respect of the sale of two grain elevators at Vancouver, payable under the respective agreements with interest at $5\frac{3}{4}\%$ and $6\frac{5}{8}\%$ over a period of 29 years, and \$1,118,714 owing for the sale of a parcel of land at Montreal as of January 1, 1968, payable with interest at $5\frac{1}{4}\%$ over a period of 40 years.

2. Debentures of Saint John Harbour Bridge Authority

The debentures were acquired in accordance with the provisions of Vote L. 106b, Appropriation Act No. 7, 1967, 1967-68, c.8, which also authorized advances to the Board for such purposes. The debentures carry interest at rates of $6\frac{1}{8}\%$ and $7\frac{1}{8}\%$ and will be redeemed between 1970 and 2020. The amount of \$14,436,863 includes accrued interest of \$656,863.

3. Projects on Board Property relating to the Canadian Universal and International Exhibition, Montreal, 1967

The cost of these projects was financed from appropriations of the Department of Transport, Vote 103.

By Order in Council P.C. 1967-2381 of December 21, 1967, effective as of January 1, 1968, three parcels of land, situate at Montreal Harbour, and comprising some 9,826,936 square feet, temporarily under the management and control of the Canadian Corporation for the 1967 World Exhibition, were transferred to the management, charge and direction of Central Mortgage and Housing Corporation for the two years ending December 31, 1969. At that date, the lands revert to the administration, management and control of the Board and the final allocation of the assets arising from the expenditure of \$11,194,156 will be made.

4. Depreciation

Operating expense includes depreciation for Harbours and Elevators of \$6,499,301, and Jacques Cartier and Champlain Bridges of \$635,233.

5. Grants in lieu of Municipal Taxes

Operating expense includes provision for grants in lieu of municipal taxes amounting to \$4,062,818.

6. Contingent Liabilities

Payments for water and sewerage services provided by the City of Quebec have not been made since May 1948, as the amounts owing are in dispute. The Board has provided \$387,099 for these services and denies liability for any additional amount.

Claims aggregating approximately \$220,000 have been received by the Board in respect of alleged damage due to faulty conditions on the Champlain Bridge, Montreal. The Board denies any liability whatsoever under these claims.

Notes to Financial Statements

1. Subsidiary Companies

The wholly-owned subsidiary companies, Arctic Shipping Limited, Decury Supply Limited and Yellowknife Transportation Company Limited have ceased to operate. Their assets have been taken over and their liabilities assumed by Northern Transportation Company Limited.

2. Capital Assets

At December 31, 1964 the boats and barges of the wholly-owned subsidiaries, having a net book value of \$939,090, were appraised by Boyd, Phillips & Company Limited, surveyors and appraisers, Vancouver, B.C., at \$3,486,800. Since the purchase price of the capital stock exceeded the aggregate net assets of the subsidiaries by \$937,118 at date of acquisition, the book value of the boats and barges has been increased by this amount.

3. Deferred Income Tax

The Company records depreciation based on the expected useful life of its capital assets but claims the maximum capital cost allowance permitted under the Income Tax Act in calculating its taxable income. The Deferred Income Tax account is credited with the income tax payable on the excess of capital cost allowance over depreciation and is charged when the converse prevails. In 1968 the account was charged with \$116,123.

4. Loss on Disposal of Capital Assets

Assets, at a book value of \$200,084, acquired from the wholly-owned subsidiary companies in 1965, were declared unseaworthy, economically unrepairable and were scrapped. The proceeds of sale of other, fully depreciated, assets amounted to \$2,086.

5. Remuneration of Directors

Total remuneration of directors as directors, officers or employees of the Company for the year was \$33,567.

AND SUBSIDIARY COMPANIES

Notes to Financial Statements

1. Basis of Consolidation and Exchange Translation

The consolidated financial statements reflect the financial position and the results of operations of Polymer Corporation Limited and its subsidiary companies, Polymer Corporation (SAF), Polysar Belgium N.V., Polysar Incorporated, Polysar International S.A., Polysar Italiana S.p.A., Polysar Nederland N.V., Polysar (U.K.) Limited, Kayson Plastics & Chemicals Limited, Societe des Latex S.A., Societe Francaise Polysar, and Synthetic Elastomers Development S.A. Translation of foreign currencies into Canadian dollars has been effected as follows: current assets and current liabilities at rates of exchange in effect on December 31; all other assets and liabilities at the rates prevailing when the assets were acquired or the liabilities incurred; and income and expense at average rates in effect during the year except depreciation which was translated at the rates prevailing when the expenditures on the related fixed assets were made.

2. Depreciation and Income Tax

Depreciation is based on the expected useful life of the companies' assets. The Canadian companies claim capital cost allowance permitted under the Income Tax Act in calculating taxable income and as a result, in the current year, \$230,992 was carried to the "Deferred Income Tax" account on the Balance Sheet. This account will be reduced in future periods if depreciation exceeds capital cost allowances claimed for income tax purposes.

In addition, a provision of \$350,000 for taxes payable in future years based on prior years' earnings of a foreign subsidiary, was transferred from retained earnings to deferred income taxes payable.

3. Long-term Debt

Polymer Corporation (SAF)

Loans total Fr. 48,625,000 (\$10,703,356) and are repayable in French francs during the years 1969-1977. With the exception of Fr. 22,500,000 (\$4,955,310), the loans are guaranteed by Polymer Corporation Limited.

Polysar Belgium N.V.

A loan of Fr. 450,000,000 (\$9,729,000), guaranteed by the parent company and secured by a mortgage on land and buildings, is repayable in Belgian francs during the years 1969-1977.

Polymer Corporation Limited

A 7.5% debenture issue totalling \$18,000,000, of which \$15,000,000 was received in 1967, and \$3,000,000 in 1968, is repayable as follows:

- (a) \$5,000,000 Serial Debentures Series A
—equal annual instalments of \$1,000,000 during the years 1970-1974.
- (b) \$13,000,000 Sinking Fund Debentures Series A, maturing November 1, 1987.
—pursuant to sinking fund requirements, annual payments of \$650,000 during the years 1975-1986 and a final payment of \$5,200,000 in 1987.

A loan of U.S. \$5,000,000 (\$5,400,000) is repayable in United States dollars in equal annual instalments during the years 1969-1973. The instalment maturing in 1969 of U.S. \$1,000,000 (\$1,080,000) is included in current liabilities.

Kayson Plastics & Chemicals Limited

A loan of \$20,195 secured by a mortgage on land and buildings, is repayable during the years 1969-1972.

4. Extraordinary Items

During the year the Company acquired two independent overseas distributing companies. The valuation of inventories at date of acquisition was based on their laid-down cost and the Company has revalued these inventories to the lower of plant cost or market.

5. Anticipated Capital Expenditures

It is estimated that the Company and its subsidiaries will spend \$15,630,000 next year on investments and acquisition of capital assets pursuant to Order-in-Council P.C. 1969-8, January 9, 1969.

6. Supplementary Information

THE ST. LAWRENCE SEAWAY AUTHORITY—Continued**Notes to Financial Statements**

1. Outstanding commitments under uncompleted contracts as at December 31, 1968, amounted to approximately \$22,285,000.
2. The liability of the Authority with respect to compensation for properties under expropriation or purchased at December 31, 1968, is estimated by the Authority as amounting to \$4,277,000.
3. The terms of the Authority's financing arrangements were amended by Order in Council P.C. 1968-163 of January 25, 1968, which provides that loans received under section 25 of the St. Lawrence Seaway Authority Act in respect of the Montreal-Lake Ontario Section of the Seaway, together with interest, are to be repaid in such amounts each year as the cumulative net profit of the Montreal-Lake Ontario Section, before amortization of loan principal, will permit. Any unpaid interest in respect of any year bears interest until paid, and the principal, and interest are to be fully paid on or before December 31, 2009. Outstanding loans in respect of the Montreal-Lake Ontario Section of the Seaway amounted to \$331,800,000 at December 31, 1968 with unpaid interest of \$58,179,620.
4. Loans to finance cost of construction on the Welland Canal effected prior to September 23, 1966, which aggregate \$72,500,000, have been made on an interest free basis as approved by the Governor in Council in accordance with Order in Council P.C. 1966-1828 of September 22, 1966, loans effected since that date and totalling \$46,300,000 at December 31, 1968 bear interest which shall accrue but not be payable until construction on the Welland Canal Twinning Project is completed. Accrued interest since that date amounted to \$2,430,647 up to December 31, 1968.
5. No provision has been made in the accounts for depreciation of buildings, lock gates, and lock and bridge structures in either the Montreal-Lake Ontario or Welland Sections of the Seaway. The Authority considers that these Seaway works can be maintained in working condition at all times under its maintenance programme and that the intended amortization of the principal of the amounts borrowed together with interest should make it unnecessary to include depreciation as an element of operating and maintenance cost. However, no actual amortization of the capital indebtedness referred to in Notes 3 and 4 has been made since the inception of the Seaway in 1959 up to December 31, 1968.
6. The Accumulated Provision for Replacement of Machinery and Equipment amounting to \$8,272,055 at December 31, 1968, represents the accumulated provision, at estimated replacement values, for replacement of assets in the Montreal-Lake Ontario Section of the Seaway which the Authority considers will require replacement. No similar provision has been made for the Welland Section.
7. Tolls on the Welland Section of the Seaway were suspended in 1962 but beginning with the 1967 navigation season a lockage fee of \$20 per lock was instituted, increasing by \$20 each year to reach \$100 per lock in 1971. Department of Transport Vote 90, provides for reimbursement to the Authority of the Welland Section deficit of \$8,981,502 for the year ended December 31, 1968.
8. The Authority has still to settle outstanding matters raised during the year in connection with the expropriation of Indian lands in Caughnawaga. Negotiations have been started, but it is not yet possible to determine the outcome.

THE ST. LAWRENCE SEAWAY AUTHORITY—*Concluded*

AUDITOR GENERAL OF CANADA

Ottawa, March 27, 1969.

THE HONOURABLE P. T. HELLYER,
MINISTER OF TRANSPORT,
OTTAWA.

Sir,

I have examined the accounts and financial statements of The St. Lawrence Seaway Authority for the year ended December 31, 1968.

Under the provision of section 16 of the St. Lawrence Seaway Authority Act, tolls are to be "designed to provide a revenue sufficient to defray the cost to the Authority of its operations", which costs are defined as including payments in respect of the interest on amounts borrowed by the Authority and amounts sufficient to amortize the principal of amounts so borrowed over a period not exceeding fifty years. The original conditions under which loans were made to the Authority under section 25 of the Act required the payment only of interest in the first three full years of operation (through the year ended December 31, 1962) and thereafter payment of annual amounts sufficient to amortize over a period of forty-seven years (or by December 31, 2009) all loans and interest thereon.

There was no charge to the year's operations, nor has there been since the inception of The Seaway, with respect to the amortization of the principal of the amounts borrowed. Deferred interest for prior years was reduced by payment of \$13,258,720.

The costs of operating and maintaining the canals and works under the administration of the Authority are defined under paragraph (c) of section 16 as including all operating costs of the Authority and such reserves as may be approved by the Minister. The Authority is of the opinion that it is not necessary to include depreciation as an element of operating and maintenance costs and that the amortization over the fifty-year period of the principal of the amounts borrowed together with interest as required by subsections (a) and (b) meets the requirements of the Act. Accordingly, no provision has been made for the replacement of buildings, lock gates and lock and bridge structures in the two Seaway sections. The Authority considers that these Seaway works can be maintained in working condition at all times under its maintenance programme.

As in previous years, provision was made during the year toward the cost of replacing lock, bridge and building machinery and equipment of the Montreal-Lake Ontario Section which will require replacement in the fifty-year period. The provision for 1968, calculated on an estimated replacement cost basis, amounted to \$925,750, bringing the accumulated provision for replacement of machinery and equipment at December 31, 1968 up to \$8,272,055, after charges of \$63,707 in respect of the disposal of certain movable assets during the year. No provision was made in 1968 for replacement of machinery and equipment for the Welland Section.

In compliance with the requirements of section 87 of the Financial Administration Act, I report that, in my opinion, subject to the above observations:

- (a) proper books of account have been kept by the Authority;
- (b) the financial statements of the Authority
 - (i) were prepared on a basis consistent with that of the preceding year, and are in agreement with the books of account,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Authority's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of income and expense, give a true and fair view of the income and expense of the Authority for the financial year; and
- (c) the transactions of the Authority that have come under my notice have been within the powers of the Authority under the Financial Administration Act and any other Act applicable to the Authority.

Yours faithfully,

A. M. HENDERSON
Auditor General of Canada.

NOTE—The Seaway International Bridge Corporation Ltd. was incorporated for the purpose of operating and managing the international toll bridge system between Cornwall, Ont., and Rooseveltown, N.Y., on behalf of the owners, The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation. By agreement between the Seaway entities the annual income from the operation of the bridge system, after payment of operating expenses, is to be applied first towards the amortization of the cost of the North Channel bridge, together with interest, after which the balance of the income is to be divided equally between the Seaway entities.

As shown by the attached Statement, the net income of the Corporation from the operation of the bridge system for the year ended December 31, 1968, amounted to \$161,876. This amount is payable to The St. Lawrence Seaway Authority to be applied towards the amortization of the cost of the North Channel bridge, together with interest, leaving an unamortized balance of \$10,394,837 at December 31, 1968, compared with an unamortized balance of \$10,052,902 at December 31, 1967.
